Social Convergence in Times of Spatial Distancing: The Role of Music During the COVID-19 Pandemic Niels Chr. Hansen,Melanie Wald-Fuhrmann,Jane Whitfield Davidson,2022-07-19 **Regulating New Technologies in Uncertain Times** Leonie Reins,2019-03-21 This book deals with questions of democracy and governance relating to new technologies The deployment and application of new technologies is often accompanied with uncertainty as to their long term un intended impacts New technologies also raise questions about the limits of the law as the line between harmful and beneficial effects is often difficult to draw The volume explores overarching concepts on how to regulate new technologies and their implications in a diverse and constantly changing society as well as the way in which regulation can address differing and sometimes conflicting societal objectives such as public health and the protection of privacy Contributions focus on a broad range of issues such as Citizen Science Smart Cities big data and health care but also on the role of market regulation for new technologies The book will serve as a useful research tool for scholars and practitioners interested in the latest developments in the field of technology regulation Leonie Reins is Assistant Professor at the Tilburg Institute for Law Technology and Society TILT in The Netherlands Poor's Cumulative Service ,1928 Hard Times Barbara Kellerman,2014-10-15 A highly perceptive analysis of the crisis of leadership in 21st century America written in an exhilaratingly readable style Archie Brown Oxford University author of The Myth of the Strong Leader Selected by Choice as an Outstanding Academic Book Leadership has never played a more prominent role in America s national discourse and yet our opinions of leaders are at all time lows Private sector leaders are widely seen as greedy to the point of being corrupt Public sector leaders are viewed as incompetent to the point of being inept And levels of trust in government have plummeted As the title of this book conveys leaders in America are experiencing hard times Barbara Kellerman argues that we focus on leaders and even on followers while ignoring an essential element of leadership context This book is a corrective

It enables leaders to track the terrain that they must navigate in order to create change Rather than a handy dandy manual on what to do and how to do it Hard Times is structured as a checklist Twenty four brief sections cover key aspects of the American landscape They trace evolutions and revolutions that have revised our norms transformed our populations and institutions and shifted our culture Kellerman s crash course on context reveals how significant it is to leadership Clearer still is the fact that leadership is more difficult than it has ever been It is context that explains why leadership is so fraught with frustration And it is context that makes evident why leadership will be better exercised if it is better understood Calling out patterns that emerge from the checklist Kellerman challenges leaders to do better This fascinating read will change the way that all of us think about leadership while compelling us to consider what it means for our future Finally a book that explains why leadership is so hard thought provoking examples taken from business and government alike Sydney Finkelstein Tuck School of Business author of Why Smart Executives Fail Engineering Record, Building Record and Sanitary Engineer ,1914 *Great Plains Gasification Project, Mercer County, North Dakota* United States.
