LOST

Your whole young life you imagine you'll find your passion, and one day, grow up to love what you do for a living. You think you'll find a career that doesn't feel like a job. As a child you had various dreams but you haven't followed through with any of them because they felt too unrealistic... distant.

Because of your lack of confidence, coupled with comment from people who were already beaten down by society, you believed you couldn't follow those childhood dreams. You convinced yourself you didn't have a passion so in college, you settle on a business major because it sounded safe and respectable.
