Love: Bondage or Liberation? Deirdre Johnson,2018-03-26 Much has been written about the function of falling in love in the course of therapy itself This book has a much broader aim The author a Jungian analyst and psychotherapy trainer uses her teaching and clinical experience to illuminate the whole range of this near universal human experience How and why does falling in love affect us so profoundly How can it enhance who we are or must it ultimately fade without lasting value The author argues that the many valuable studies by psychoanalysts relational psychologists anthropologists neuroscientists and philosophers have all made valuable contributions and uses these to highlight and explore the many values and dangers inherent in passionate love However she claims that a more holistic approach is required to show how these various accounts can be seen as complementary rather than competing and can be accommodated within an overarching view of the integration of the human being in its heights and depths The Delicate Balance of Love: Navigating Relationships, Lust, and Liberation Pasquale De Marco,2025-04-25 The Delicate Balance of Love Navigating Relationships Lust and Liberation is an evocative exploration of the intricate interplay between love liberation and self discovery offering a transformative journey through the depths of human emotion and experience With eloquence and empathy Pasquale De Marco weaves together insights reflections and practical guidance inviting readers to embark on a quest for personal evolution and fulfillment Delving into the nature of desire the book unveils the complexities of this powerful force examining its role in relationships its positive and negative aspects and the delicate balance that must be struck for harmonious living It explores the art of love in its many forms from romantic passion to platonic affection revealing the secrets of communication trust and overcoming

Koslowski,2013-03-14 All religions face the challenge of explaining in view of God s goodness the existence of evil and suffering in the world They must develop theories of the origin and the overcoming of evil and suffering The explanations in Buddhism Christianity Hinduism Islam and Judaism of evil and suffering and their origin as well as these world religions theories of how to overcome evil and suffering differ from one another but are also similar in many respects The human person is always considered to be the origin of evil and also to be the focus of aspirations to be able to overcome it The conviction that evil and suffering are not original and can be overcome is characteristic of and common to the religions The explanations of the origin of evil are closely related to the explanations of the continuation and propagation of evil in human persons in nature and in our technology and culture that have been developed in the religions in Christianity for example as the doctrine of original sin Finally the world religions are concerned with how to cope with suffering and offer guidance for overcoming evil and suffering Leading scholars of five world religions Buddhism Islam Christianity Judaism and Hinduism have created with this volume a first hand source of information which enables the reader to gain a better understanding of these religions central teachings about the origin and the overcoming of
