Workbook for Fordney's Medical Insurance and Billing - E-Book Linda M. Smith, 2025-04-04 Get the hands on practice you need to master medical insurance billing and coding Corresponding to the

chapters in Fordney's Medical Insurance and Billing 17th Edition this workbook provides realistic exercises that help you apply concepts and develop the skills needed by insurance billing specialists. Assignments ask you to complete common claim forms such as the CMS 1500 and the UB 04 by extracting information from patient records and accurately selecting procedural and diagnostic codes. This edition adds exercises on professionalism, HCPCS coding and credentialing activities. With this practical workbook you will make the most of your Fordney's textbook. NEW HCPCS Coding chapter includes exercises for ambulance billing, supply billing and more. NEW exercises on professionalism cover customer service, conflict management, diversity, awareness, leadership and other competencies to help you become an effective, engaged and highly functioning employee. NEW exercises related to billing of automobile and liability insurance. Self study exercises reinforce your understanding with matching, true/false, multiple choice, mix and match and fill in the blank questions as well as critical thinking assignments. Diagnostic, procedural and HCPCS code exercises provide practice with submitting a claim or making an itemized billing statement. Study outlines focus your review by listing the key points for each chapter. Performance objectives make learning easier by highlighting what you need to accomplish in each chapter. Key terms and abbreviations at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Critical Thinking assignments are based on short real world vignettes preparing you to work in a real medical office and allowing you to apply theory learned from the textbook.
