Nationalisms in International Politics Kathleen E. Powers, 2022-02-15 How the ideas that animate nationalism influence whether it causes or calms conflict With nationalism on the rise around the world many worry that nationalistic attitudes could lead to a surge in deadly conflict To combat this trend federations like the European Union have tried to build inclusive regional identities to overcome nationalist distrust and inspire international cooperation Yet not all nationalisms are alike Nationalisms in International Politics draws on insights from psychology to explore when nationalist commitments promote conflict and when they foster cooperation Challenging the received wisdom about nationalism and military aggression Kathleen Powers differentiates nationalisms built on unity from those built on equality and explains how each of these norms give rise to distinct foreign policy attitudes Combining innovative US experiments with fresh analyses of European mass and elite survey data she argues that unity encourages support for external conflict and undermines regional trust and cooperation whereas equality mitigates militarism and facilitates support for security cooperation Nationalisms in International Politics provides a rigorous and compelling look at how different forms of nationalism shape foreign policy attitudes and raises important questions about whether transnational identities increase support for cooperation or undermine it

**Globalizing the Lower Rio Grande** Kyle B. Carpenter, 2024-10-15 Often obscured in the history of the nineteenth century US Mexico borderlands European born entrepreneurs played a definitive role in pushing the Rio Grande borderlands into Atlantic markets These borderlands entrepreneurs tried to transform the Lower Rio Grande and its surroundings from a regional crossroads of trade to a hub of the Atlantic economy Though they were often stymied by mismanagement notions of ethnic and cultural superiority and eruptions of violence these entrepreneurs persistently attempted to remake the region into a modern commercial utopia Their actions challenged United States imperial expansion into the Rio Grande borderlands as they tried to modernize the region according to European cultural precepts through constructing colonies populated with Europeans building strong networks of local and global significance and striving to dominate trade in the region Globalizing the Lower Rio Grande reframes the narrative of the borderlands through the perspectives of Europeans who actively shaped the historical trajectory of the region It highlights the actions of folks like English born John C Beales who convinced a party of Europeans to trek overseas and overland to the isolated Las Moras Creek to build a colony from scratch Alexander Bourgeois d Orvanne former mayor of Clichy la Garenne in France who manipulated powerful French and German leaders to support a settlement scheme on the Rio Grande Spanish born Jos San Rom n and the way he constructed massive transatlantic networks of credit and exchange and Joseph Kleiber from Strasbourg who facilitated the construction of a European owned railroad line along the Rio Grande Though ultimately undermined and outmaneuvered by their American rivals European born borderlands entrepreneurs like these collectively globalized the Lower Rio Grande

*The Unfinished Nation* Alan Brinkley,1997      Refocusing Chaplin Lawrence Howe,James E. Caron,Benjamin Click,2013-10-03 Widely recognized in his character of the Tramp Charlie Chaplin transcended the role of actor to become screenwriter director composer producer and finally studio head The subject of numerous biographical studies Chaplin has been examined as both myth and man but these treatments fail to adequately address the often overlooked complexity of his filmmaking Refocusing Chaplin A Screen Icon through Critical Lenses features essays that examine the actor and director through various theoretical perspectives including Marxism feminism gender studies deconstruction psychoanalytic criticism new historicism performance studies and cultural criticism Complementing this range of intellectual inquiry is the wide reach of films discussed from *The Circus* 1928 *The Gold Rush* 1925 and *City Lights* 1931 to *Modern Times* 1936 *The Great Dictator* 1940 *Monsieur Verdoux* 1947 and *Limelight* 1952 Shorter films such as *The Pawnshop* 1916 *The Rink* 1916 and *A Dog s Life* 1918 are also examined These essays analyze the tensions between the carefully constructed worlds of Chaplin s films and their cultural contexts The varied approaches and range of materials in this volume not only comprehensively assess the screen icon but also foster a conversation that exemplifies the best of intellectual exchange Refocusing Chaplin provides a unique view into the work of one of cinema s most important and influential artists      A Patriot's History of the United States Larry Schweikart,Michael Allen,2014-11-25 For the past three decades many history professors have allowed their biases to distort the way America s past is taught These intellectuals have searched for instances of racism sexism and bigotry in our history while downplaying the greatness of America s patriots and the achievements of dead white men As a result more emphasis is placed on Harriet Tubman than on George Washington more about the internment of Japanese Americans during World War II than about D Day or Iwo Jima more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin A Patriot s History of the United States corrects those doctrinaire biases In this groundbreaking book America s discovery founding and development are reexamined with an appreciation for the elements

of public virtue personal liberty and private property that make this nation uniquely successful This book offers a long overdue acknowledgment of America s true and proud history

**Forthcoming Books** Rose Arny,2002 *The Genesis of Israel and Egypt* Emmet Sweeney,2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt s civilization and its links with Mesopotamia and the early Hebrews The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world s great libraries Starting with clues unearthed by history sleuth Immanuel Velikovsky and others Emmet Sweeney takes the investigation further While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt s history with that of the Bible Apparent gaps and weird repetitions resulted Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view Taking a more rigorous approach and pointing to solid evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser s dream Imhotep is shown to be the same person as Joseph

son of Jacob      **Books in Print Supplement** ,2002      **48 Liberal Lies about American History** Larry Schweikart,2008  
 As he did in his popular *A Patriot's History of the United States* Schweikart corrects liberal bias by rediscovering facts that were once widely known He challenges distorted books by name and debunks 48 common myths      *Nation Games* Benjamin Zachariah,2020-08-10 This volume examines the tension between the nation idea as a necessary language of legitimacy with which to claim liberation and its role in disciplining people and their identities in India in the name of national liberation It is an attempt to open up new lines of thinking and ways of reading Indian history      *The Western Historical Quarterly* ,2019  
Recording for the Blind & Dyslexic, ... Catalog of Books ,1996      *Program of the Annual Meeting - American Historical Association* American Historical Association,1992 Some programs include also the programs of societies meeting concurrently with the association      **The Scottish Nation** William Anderson,2023-04-08 Reprint of the original first published in 1872 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost      **The Political Economy of Nation Building** Mack Ott,2017-07-28 Donor nations may advise and counsel but the creation of a liberal nation state falls to its own people They must create laws exercise their liberties provide freedom of belief and expression and protect individual property rights No nation becomes or remains free unless its people build use and defend these institutions and protect them with understanding vigilance and effort The Political Economy of Nation Building reviews the effects of political structures on the evolution and stability of liberalism in developing nations and considers the outlook for their success Discussing the origins and applications of the modern liberal state from an explicitly Anglo and Euro centric view Mack Ott addresses the origins of the rule of law and innovations that led to the rise of a market economy separation of faith and governance and the autonomy of finance key components of the liberal state He then addresses the emergence of sustained economic growth a bridge between the liberal infrastructure and its application during the construction of a nation Ott examines budget policy and laws and accurate and timely economic and financial statistical reporting that assure donors that the recipient government is operating within the constraints of law He addresses the beneficial effects of privatization of state owned industry examines the costs and benefits of nurturing non governmental associations and concludes with a review of transparent fiscal and monetary policies and the importance of non interference in financial markets by the state      *One Drop of Blood* Scott Malcomson,2000-10-04 A bold and original retelling of the story of race in America Why has a nation founded upon precepts of freedom and universal humanity continually produced through its preoccupation with race a divided and constrained populace This question is the starting point for Scott Malcomson's riveting and deeply researched account which amplifies history with memoir and reportage From the beginning Malcomson shows a nation obsessed with invention began to create a new idea of race investing it with unprecedented moral and social meaning A succession of visionaries and opportunists self promoters and would be reformers carried on the process helping

to define black white and Indian in opposition to one another and in service to the aspirations and anxieties of each era But the people who had to live within those definitions found them constraining They sought to escape the limits of race imposed by escaping from other races or by controlling confining eliminating or absorbing them in a sad absurd parade of events Such efforts have never truly succeeded yet their legacy haunts us as we unhappily re enact the drama of separatism in our schools workplaces and communities By not only recounting the shared American tragicomedy of race but helping us to own even to embrace it this important book offers us a way at last to move beyond it *American Studies* ,1992 **The Nation** ,1896 The Emergence of American Occidentalism in Literature and Culture Muthanna Al-Janabi,2025-10-28 The book presents an innovative conceptualization of Western thought casting the discourse of black and white intellectuals and politicians as a treatise on Occidentalism It envisions American Occidentalism as an inner discourse where Critical Occidentalists interact textually and historically in response to the prevailing crosscurrents To capture this narrativity the first chapter establishes the book s new terminology rereads ancient Greek texts and critiques the works of key anthropologists like James G Carrier and Fernando Coronil as well as cultural theorists such as Hassan Hanafi Xiaomei Chen and Ian Buruma and Avishai Margalit The other three chapters analyze the Occidentalist tendency in the discursive official and intellectual practices of the Early Republic the twentieth century and the twenty first century Ideal for scholars and individuals interested in postcolonial theory African American literature and political sciences this book challenges readers to see the Occident not as a fixed entity but as a dynamic self critical tradition
