2. Theoretical background In the empirical literature, the role of the media in the economic development of a country has been widely debated. On the one hand, the media is seen as a powerful tool for disseminating information and promoting economic growth. On the other hand, the media is also seen as a source of misinformation and manipulation. The theoretical background of the media's role in economic development is complex and multifaceted. It involves the study of the media's impact on the economy, the role of the media in the development of the economy, and the role of the media in the development of the media industry itself. The theoretical background of the media's role in economic development is a topic that has been studied extensively in the literature. The following sections will discuss the theoretical background of the media's role in economic development in detail.
