Promoting Teacher Reflection in Second Language Education Thomas S. C. Farrell, 2014-11-27 Taking the concept and the practice of reflective teaching forward, this book introduces a well-structured, flexible framework for use by teachers at all levels of development, from pre-service to novice to the most experienced. The framework outlines five levels of reflective practice: Philosophy, Principles, Theory of Practice, Practice, and Beyond Practice, and provides specific techniques for teachers to implement each level of reflection in their work. Designed to allow readers to take either a deductive approach (moving from theory into practice) or an inductive approach (where they start from a practice into theory position), the framework can be used by teachers alone, in pairs, or in a group.
