toward the nature of classroom science in which students were responsible for applying concepts provided by the teacher to appropriate situations Patterns in teachers talk about assessment were consistent with this orientation There was also evidence that teachers expressed PCK was consistent with this orientation More often however teachers did not describe classroom practice to a level of detail that supported connections to a specific orientation The findings provide support for proposals that PCK is an important resource for teachers formative assessment practice as well as providing evidence that formative assessment represents an important opportunity for teachers to build PCK Future research and professional development in this area needs to consider the role of material resources such as curriculum and assessment tools as well as the role of teachers orientations to the nature of classroom science

classroom and household level is made up of seven components In reflecting on what worked and what did not in the implementation of these different components the different chapters set out some of the practical lessons learnt which could be used to improve the design and implementation of similar education improvement projects Many of the lessons in this field that remain under recorded to date relate to the step by step processes followed the relationship dynamics encountered at different levels of the education system and the local realities confronting schools and districts in South Africa s rural areas Drawing on field data that is often not available to researchers the book endeavours to address this gap and record these lessons It is not intended to provide an academic review of the systemic school improvement projects It is presented rather to offer other development practitioners working to improve the quality of education in South African schools an understanding of some of the real practical and logistical challenges that arise and how these may be resolved to take further school improvement projects forward at a wider district provincial and national scale
