many practical projects and activities It is sure to appeal to a wide range of teachers educators and parents seeking innovative ideas for incorporating green themes into their programs Tim Grant and Gail Littlejohn are the editors of *Green Teacher* magazine North America's award winning environmental teaching resource *A New Approach to Ecological Education* Gillian Judson, 2010 Part of the Peter Lang Education list P facing t p Teaching Green -- The Elementary Years Tim Grant, Gail Littlejohn, 2005-05-01 A complete resource for teaching green to young people from kindergarten through grade five *Students Learning in Communities* Eija Kimonen, Raimo Nevalainen, 2022-04-04 This book examines the interplay between education and society in the 20th and early 21st centuries and addresses philosophical views and educational aims with their associated values for community based learning in the U S A India Russia and China The philosophical background of community based learning in these countries relies both on national philosophical traditions and on reformist ideas in international schools of thought over time opposition to certain international pedagogical ideas surfaced in these countries The authors offer a comprehensive picture of community based learning in education and demonstrate how teachers can make learning more functional and holistic so that students can work in new situations within their complex worlds School specific descriptions reveal how teachers and students implemented community based projects at different times *Sustainability Frontiers* David Selby, Fumiyo Kagawa, 2014-12-15 Education for sustainable development the educational offshoot of the concept of sustainable development has rapidly become the predominant educational response to the global environmental crisis The authors apply a critical lens to the field and find it wanting in many regards *Sustainability Frontiers* is an international academic non governmental organization based in Canada and the United Kingdom It engages in research and innovation in the broad fields of sustainability and global education challenging dominant assumptions and current orthodoxies as it seeks to foster learner empowerment and action It places particular emphasis on climate change disaster risk reduction and peacebuilding and their implications for the nature and directions of sustainability education Green Teacher , 2003 Great Expectations Heather-Jane Robertson, 2007 Teaching Towards Green Schools Linda H. Plevyak, 2022-07-04 This engaging and timely book showcases practical ways that PreK 12 teachers and school leaders can create and implement sustainability focused projects and practices in their classrooms and schools helping promote a healthy sustainable environment and curriculum for students and leading the way towards becoming a green school Sharing real world case studies and detailed walk throughs of sustainable schools in action from Madison Alabama to Bali Indonesia author Linda H Plevyak lays out the benefits principles and practices of creating a sustainable school from beginner classroom projects like creating a garden recycling and composting to more complex and school wide initiatives like energy audits creating an environmental management system engaging with policy and building and leveraging community partnerships Plevyak highlights sustainable practices that can be developed with little to no budget and focuses on those that support the development of critical thinking skills promote project based learning and consider the environment as a learning

tool incorporating sustainability as a natural progression of the learning process The book outlines extensive resources teachers and schools can use to embed sustainability in their programs and curriculum offering teachers school leaders and policy makers the tools they need to provide this generation of students with the knowledge and skills to create a more sustainable world

Education and Society in Comparative Context Eija Kimonen, 2015-12-17 What was the interrelationship between education and society during the twentieth century in the United States and India What is the essence of the historical development of educational policies and social systems in these two countries What philosophical views and developmental courses underlie their outdoor oriented education What are their aims of outdoor oriented education What procedures are connected with their outdoor oriented education These questions are examined in this unique volume This book is divided into three parts The first part creates a context for the comparison of the issues concerning education and society The central point of departure used here regards education as being closely related to the totality of culture and human activity The dialectic process between education and society is realized differently in accordance with the value objectives that provide the background for different societies This comparative educational study uses a historico hermeneutical approach The second part analyzes the social systems and educational policies of the United States and India following their developmental trends and patterns The nature of the relationship between education and society for each country is further brought into focus when it is interpreted from the perspective of the philosophical views pedagogical aims and procedures of twentieth century outdoor oriented education The case studies provide an interesting insight into how changes in educational policy have been reflected in the every day pedagogical procedures used in schools in the United States and India The third part is an analysis and comparison of the phenomena previously presented that are related to education and society through the lenses suggested by sociological theories It compares the dimensions of the interrelationship between education and society from the standpoint of outdoor oriented education in the two countries during the twentieth century This thought provoking volume is intended for anybody interested in the interplay between education and society in all its complexity It offers a fascinating journey into the past and present of the issues that have defined the development of education and society in the United States and India

Teaching Peace Colman McCarthy, 2015-02-28 To see if nonviolence could be

taught in 1982 Colman McCarthy became a volunteer teacher at one of the poorest high schools in Washington DC In the thirty two years since then he has taught peace studies courses for more than ten thousand college and high school students Large numbers of those students have faithfully kept in touch with McCarthy often with handwritten letters and he has answered them with the same seriousness he brought to his columns and books The exchanges rise to a rare kind of literature that blends personal warmth intellectual honesty and shared idealism The discussions range from peace and war to a host of other issues of social justice such as the death penalty human rights poverty the living wage animal rights and vegetarianism The wide ranging letters suggest how teacher and students co create a world of more love and less hate
