The New Shaksperian Dictionary of Quotations William Shakespeare, 1875 *The new Shaksperian dictionary of quotations*, by G.S. Bellamy William Shakespeare, 1875

The New Shakespearean Dictionary of Quotations Bellamy, 1875 **Reality Unedited** Kevin R. Nelson, 2021-10-09 Our species has coexisted in the world in a healthy and balanced way for 97% of its existence It was only after our ancestors emerged from life in nature as hunter gatherers that this all began to change By the beginning of civilization some 6 000

years ago these changes rigidified and became destructive on a large scale. They have accumulated to such an extent that our species now faces extinction or a dismal future of ever worsening ecocide. Meaninglessness and confusion have become rampant in our postmodern era. The human psyche has become utterly fragmented and rendered a stranger to reality, other people, and itself. As dispiriting as this all seems, the path forward has always been available to us if we can overcome the ignorance that prevents us from taking it. We must reject the values of civilization and return to the naturalistic perspective of our ancestors where our values, thinking, feeling, and actions are once again based on how nature and reality truly function. While this approach should be evident, we have until now been too terrified, bewildered, or arrogant to adopt it. To help us succeed, Reality Unedited provides a simple model of reality that serves as a foundation for establishing truth claims in the public sphere. Then we can finally take the actions necessary so our species and all life on the planet cannot only survive but thrive.

Henry V, War Criminal? John Sutherland, Cedric Watts, 2000. Shakespeare loves loose ends. Shakespeare also loves red herrings. Stephen Orgel. Loose ends and red herrings are the stuff of detective fiction and under the scrutiny of master sleuths John Sutherland and Cedric Watts, Shakespeare's plays reveal themselves to be as full of mysteries as any Agatha Christie novel. Is it summer or winter in Elsinore? Do Bottom and Titania make love? Does Lady Macbeth faint or is she just pretending? How does a man putrefy within minutes of his death? Is Cleopatra a deadbeat mum? And why doesn't Juliet ask O Romeo Montague wherefore art thou Montague? As Watts and Sutherland explore these and other puzzles, Shakespeare's genius becomes ever more apparent. Speculative, critical, good humoured, and provocative, their discussions shed light on apparent anachronisms, performance, and stagecraft, linguistics, Star Trek, and much else. Shrewd and entertaining, these essays add a new dimension to the pleasure of reading or watching Shakespeare. Few modern academics are doing quite so much as Professor Sutherland to connect the common reader with great books. Independent.
