## **Unethical Entangled Embrace:**

*Russia's Entangled Embrace* Stephen Badalyan Riegg, 2020-07-15 *Russia's Entangled Embrace* traces the relationship between the Romanov state and the Armenian diaspora that populated Russia's territorial fringes and navigated the tsarist empire's metropolitan centers. By engaging the ongoing debates about imperial structures that were simultaneously symbiotic and hierarchically ordered, Stephen Badalyan Riegg helps us to understand how for Armenians and some other subjects, imperial rule represented not hypothetical clear-cut alternatives but simultaneous messy realities. He examines why and how Russian architects of empire imagined Armenians as being politically desirable. These circumstances included the familiarity of their faith, perceived degree of social, political, or cultural integration, and their actual or potential contributions to the state's varied priorities. Based on extensive research in the archives of St. Petersburg, Moscow, and Yerevan, *Russia's Entangled Embrace* reveals that the Russian government relied on Armenians to build its empire in the Caucasus and beyond. Analyzing the complexities of this imperial relationship beyond the reductive question of whether Russia was a friend or foe to Armenians allows us to study the methods of tsarist imperialism in the context of diasporic distribution, interimperial conflict, and alliance, nationalism, and religious and economic identity.

Unethical Jennifer Blackwood, 2014-10-20 Two years ago the medical world was shaken by scandal, and Payton Daniels's family was at the center of it. The second she graduated, Payton left everything behind: her high school sweetheart, her family, and the controversy surrounding her mother's death, and hid within the anonymity of college. But Payton's ex, Blake Hiller, hasn't forgiven her for leaving, and when he enrolls in the same medical ethics class, she panics. She can't run the risk of him telling everyone who she really is. As if being at the same university isn't enough, both Blake and Payton land the same internship. Forced together, their passion for each other reignites, but when Payton is asked to testify in her father's high-profile trial, she must choose between risking her acceptance into medical school to help her father and losing every connection to her past, including the only guy she's ever loved. Each book in the Drexler University series is STANDALONE.

**Unethical Foolproof** **Entangled Fictions** Suvadip Sinha, 2022-08-26 *Entangled Fictions: Nonhuman Animals in an Indian World* studies the ethical and affective relationships between human and nonhuman animals in Indian fictional worlds. While drawing upon existing theoretical and philosophical texts with nonhumanist underpinnings, *Entangled Fictions* argues that the corpus is limited epistemologically and politically when it comes to their examinations of the nonhuman in India. Deeply influenced by the political, existential, and expediencies of our times, the book traverses several genres, shifts from fictional to anecdotal, and transitions from autobiographical to spectral in effort to introduce readers to fictional worlds marked by human-nonhuman fluidity and trans-species contiguity that was imagined and lived much before the telos of human extinction became either a global or local concern.

**Changing Teacher Professionalism** Sharon Gewirtz, Pat Mahony, Ian Hextall, Alan Cribb, 2009-01-08 Significant changes in the policy and social context of teaching over the last 30 years have had

substantial implications for teacher professionalism As the influence of central regulation and marketisation has increased so the scope for professional influence on policy and practice has in many cases diminished Instead teachers have had to respond to a range of other demands stemming from broader social changes including greater public scepticism towards professional authority combined with demands for public services that are more responsive to diverse cultural and social identities This collection of work by leading international scholars in the field makes a unique contribution to understanding both how these changes are impacting on teaching and how teachers might change their practice for the better The central premise of the book is that if research is going to be helpful in improving professional learning and the quality of teachers practice the full potential of three broad approaches to research on teacher professionalism needs to be brought to bear on these issues research on the changing political and social context of professional work and practice research on the working lives and lived experiences of teachers and research on how teachers professional practices might be enhanced In bringing together and drawing out the complementarities of these three approaches this book represents a ground breaking collection of work

**Subjects of Intergenerational Justice** Christine J. Winter, 2021-09-05 This book challenges mainstream Western IEJ intergenerational environmental justice in a manner that privileges indigenous philosophies and highlights the value these philosophies have for solving global environmental problems Divided into three parts the book begins by examining the framing of Western liberal environmental intergenerational and indigenous justice theory and reviews decolonial theory Using contemporary case studies drawn from the courts film biography and protests actions the second part explores contemporary Mori and Aboriginal experiences of values conflict in encounters with politics and law It demonstrates the deep ontological rifts between the philosophies that inform Mori and Aboriginal

intergenerational justice IJ and those of the West that underpin the politics and law of these two settler states Existing Western IEJ theories across distributional communitarian human rights based and the capabilities approach to IJ are tested against obligations and duties of specific M ori and Aboriginal iwi and clans Finally in the third part it explores the ways we relate to time and across generations to create regenerative IJ Challenging the previous understanding of the conceptualization of time it posits that it is in how we relate human to human human to nonhuman nonhuman to human that robust conceptualization of IEJ emerges This volume presents an imagining of IEJ which accounts for indigenous norms on indigenous terms and explores how this might be applied in national and international responses to climate change and environmental degradation Demonstrating how assumptions in mainstream justice theory continue to colonise indigenous people and render indigenous knowledge invisible this book will be of great interest to students and scholars of environmental and intergenerational philosophy political theory indigenous studies and decolonial studies and environmental humanities more broadly
