English Studies in Indian Universities Ravindra Baburao Tasildar, 2019-01-22 Right from its formal introduction in India in 1835 through Thomas B Macaulay's Minute English has been intrinsically linked with the employment prospects of Indians. During their regime the British promoted English education to fulfil the requirement of English knowing Indians for administrative purposes. Owing to globalization the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India English education was a passport to government jobs while in the twenty-first century proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-à-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment. *Syllabus of the Obstetrical Lectures in the Medical Department of the University of Pennsylvania* Richard Cooper Norris, 1894 *Nirma University Law Journal* Himangshu Rathee, Jharna Sahijwani, Nandini Garg, Siddhant Garg, Yashprada Joglekar, Nikhil Adsule, Swati Yadav, Nitesh Chaudhary, 2020-07-31 *Nirma University Law Journal* Volume IX Issue II July 2020 ISSN 2249 1430 **The Oxford Conference** Susan Roaf, Andrew Bairstow, 2008 50 years after the first Oxford Conference on Architectural Education the 2008 conference brought together over 500 people from 42 countries to share best practice, discuss how, when, where and why we teach architecture now and in the future. *English Studies in India* Banibrata Mahanta, Rajesh Babu Sharma, 2018-11-03 This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context. The discussions in this volume range from historical perspectives to classroom specific pedagogies from sociological and political hierarchies to the dynamics of intellectual development in the English language environment. Interrogating both policy and practice pertaining to English Studies in the context of Indian society, culture, history, literature and governance, the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities. Since the introduction of English to India more than 2 centuries ago, the language has transmuted the very fabric of Indian society, culture, history, literature and governance. The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation. The present globalized world order has added dimensions to English Studies which are radically different from those of India's colonial and postcolonial past. It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context. This volume is for scholars and researchers of English literature and language studies, linguistics and culture studies and others interested in exploring new paradigms of engagement with the disciplinary formulation of English Studies in India. **Deconstructing Teacher Education in Contemporary Times** Alka Behari, 2025-09-11 The book provides a comprehensive overview of the field of teacher education and analyses its concepts.
