BC296D | \$519.95

DTL-500007

Many public safety radio systems across the U.S., and Canada are switching to the latest in communications systems, APCO-25 digital. On a standard scanner all you'll hear when listening to a digital system is a buzzing sound, but with the Bearcat BC296 you'll hear these digital stations clear as day. The BC296 includes an installed APCO-25 digital card that automatically decodes the all non-encrypted APCO-25 systems. So if you live in Philadelphia, Los Angeles or dozens of other cities around the U.S., you'll be able to listen to police and fire operations once again. The BC296 also has the latest TrunkTracker technology, including iCALL and Emergency Alert capability, so you can follow almost any trunk system too. With its terrific alpha-numeric display you can see "Chicago Fire" or whichever agency name you program. The display also presents you with a signal strength meter, battery-low indication, and more. The radio is solid but not oversize. The Bearcat 296 is a state-of-the-art scanner that just about does it all. If you live in a digital area there simply is no better choice.

The Bearcat 2500 contains all the features of the BC296D above but it does not come with the digital card installed. It can be purchased separately while supplies last. The 250D also does not have 9600 baud Motorola trunking capability as the 296D does, however this type of trunking is only available in limited areas of the country including Michigan, Colorado, Minneapolis and Phoenix. The 250D is a fine radio and a terrific buy for those who don't need digital at the time of their purchase. The radio has been discontinued and quantities are limited.

BC250D Combo Pack | \$379.95

DTL-500070

Scanner Master made a large buy of "Combo-Pack" BC296D & BC250 Digital Card packaged together and sold as one unit. Now you can have digital capabilities in a portable scanner at a very good price, almost \$150 off the price of a Bearcat 296 bare 2500 limitations listed above.

See details on the 250D's capabilities listed above. Note that the card comes in the box with the radio and takes seconds to install in the radio. Also note that the 250 will work on 99% of the APCO-25 digital systems in the U.S., but there are a few digital trunked systems, such as in Michigan, Minneapolis, Colorado and Phoenix where the Bearcat 296 is required.

Quantities are very limited and when the Combo Packs are sold out we won't be able to make this offer ever again.
