If any items are missing or damaged, never use damaged products!

Important Safety Instructions!

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

- This unit is NOT waterproof. DO NOT expose it to rain/moisture.
- Do not use this product near water, for example, near a bath tub.

1000

1. Pick up the handset from the cradle and press **TALK**. You should hear a dial tone, and the display should say **Talk**.
 - If you don't hear a dial tone or the display says **Check Tel Line**, try checking the connection between the base and the phone jack.
2. Make a quick test call. (Press **END** to hang up.)
 - If you keep hearing a dial tone, try changing to pulse dialing mode.
 - If you hear a lot of noise, there might be interference.
3. Test all your handsets the same way. If you can't get a dial tone, try moving the handset closer to the base.

Changing from Tone to Pulse Dialing

Your phone uses tone dialing by default. If your phone company uses pulse dialing, you need to change your phone's dial mode.

1. From a handset, open the menu and select **Global Setup**.
2. Select **Dial Mode**, then select **Pulse**. The phone sounds a confirmation tone.

To send DTMF tones during a call (e.g., for an automated response system), press ***** to temporarily switch to tone dialing. When you hang up, the phone automatically returns to pulse dialing.
