Stalin Volume I Paradoxes Of Power:

Stalin Stephen Kotkin, 2014 An extensively researched portrait of the Soviet dictator covers his rise from humble origins the inner power structure of the Bolshevik regime and the early formation of Stalin's fabricated trial process **Stalin** Stephen Kotkin, 2014 The magnificent new biography that revolutionizes our understanding of Stalin and his world FINANCIAL TIMES Books of the Year 2014 In January 1928 Stalin the ruler of the largest country in the world boarded a train bound for Siberia where he would embark upon the greatest gamble of his political life He was about to begin the largest programme of social reengineering ever attempted the root and branch uprooting and collectivization of agriculture and industry across the entire Soviet Union Millions would die and many more would suffer How did Stalin get to this point Where did such great monstrous power come from The first of three volumes the product of a decade of scrupulous and intrepid research this landmark book offers the most convincing portrait and explanation yet of Stalin's power and of Russian power in the world The book is as much about the Russia that Stalin inherits and reshapes as about the man himself It gives a brilliantly nuanced picture of the sequence of catastrophes that disposed of the social structures armies rivals and close colleagues that should have stood in Stalin's way as he emerged from obscurity to shoulder the terrifying responsibility of upholding Russian power in the world *Stalin, Vol. I* Stephen Kotkin, 2014-10-23 The magnificent new biography that revolutionizes our understanding of Stalin and his world In January 1928 Stalin the ruler of the largest country in the world boarded a train bound for Siberia where he would embark upon the greatest gamble of his political life He was about to begin the largest programme of social reengineering ever attempted the root and branch uprooting and collectivization of agriculture and industry across the entire Soviet Union Millions would die and many more would suffer How did Stalin get to this point Where did such great monstrous power come from The first of three volumes the product of a decade of scrupulous and intrepid research this landmark book offers the most convincing portrait and explanation yet of Stalin's power and of Russian power in the world The book is as much about the Russia that Stalin inherits and reshapes as about the man himself It gives a brilliantly nuanced picture of the sequence of catastrophes that disposed of the social structures armies rivals and close colleagues that should have stood in Stalin's way as he emerged from obscurity to shoulder the terrifying responsibility of upholding Russian power in the world **Stalin's Library** Geoffrey Roberts, 2022-01-01 A compelling intellectual biography of Stalin told through his personal library A fascinating new study Michael O'Donnell Wall Street Journal In this engaging life of the twentieth century's most self-consciously learned dictator Geoffrey Roberts explores the books Stalin read how he read them and what they taught him Stalin firmly believed in the transformative potential of words and his voracious appetite for reading guided him throughout his years A biography as well as an intellectual portrait this book explores all aspects of Stalin's tumultuous life and politics Stalin an avid reader from an early age amassed a surprisingly diverse personal collection of thousands of books many of which he marked and annotated revealing his intimate thoughts

feelings and beliefs Based on his wide ranging research in Russian archives Roberts tells the story of the creation fragmentation and resurrection of Stalin s personal library As a true believer in communist ideology Stalin was a fanatical idealist who hated his enemies the bourgeoisie kulaks capitalists imperialists reactionaries counter revolutionaries traitors but detested their ideas even more **Stalin** Stephen Kotkin,2018-11-20 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler s Germany that is the signal event of modern world history In 1929 Joseph Stalin having already achieved dictatorial power over the vast Soviet Empire formally ordered the systematic conversion of the world s largest peasant economy into socialist modernity otherwise known as collectivization regardless of the cost What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became Stephen Kotkin s Stalin Waiting for Hitler 1929 1941 is the story of how a political system forged an unparalleled personality and vice versa The wholesale collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism But Stalin did not flinch By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside praise for his stunning anti capitalist success came from all quarters Stalin however never forgave and never forgot with shocking consequences as he strove to consolidate the state with a brand new elite of young strivers like himself Stalin s obsessions drove him to execute nearly a million people including the military leadership diplomatic and intelligence officials and innumerable leading lights in culture While Stalin revived a great power building a formidable industrialized military the Soviet Union was effectively alone and surrounded by perceived enemies The quest for security would bring Soviet Communism to a shocking and improbable pact with Nazi Germany But that bargain would not unfold as envisioned The lives of Stalin and Hitler and the fates of their respective dictatorships drew ever closer to collision as the world hung in the balance Stalin Waiting for Hitler 1929 1941 is a history of the world during the build up to its most fateful hour from the vantage point of Stalin s seat of power It is a landmark achievement in the annals of historical scholarship and in the art of biography Stalin and War, 1918-1953 David R. Shearer,2023-09-11 Stalin and War 1918 1953 is the first book to examine the patterns of radicalized internal violence that characterized the Stalinist regime across the whole of the dictator s rule and it is one of the only works to connect patterns of internal violence to the dictator s perceptions of war and foreign threat Discussion focuses on the crisis years 1928 1932 1936 1939 the Great Fatherland War and the last war crisis period 1947 1953 Violent repressions under Stalin were cyclical They peaked and ebbed but in each case they were linked to Stalin s expectation of war and invasion to his perceived need for urgent internal mobilization and to intense foreign policy activity Stalin s behavior in each of these perceived war crises followed a pattern established during

the dictator's experience as a military commander in the Russian revolutionary wars and especially during the Polish war in 1919 and 1920 Together these chapters trace a consistent and interconnected logic of war and repression throughout Stalin's political life This book will be of interest to professional scholars of Soviet history twentieth century history and World War II history and it is approachable enough to be appreciated by general readers **Stalin's War** Sean McMeekin, 2021-04-20 A prize winning historian reveals how Stalin not Hitler was the animating force of World War II in this major new history World War II endures in the popular imagination as a heroic struggle between good and evil with villainous Hitler driving its events But Hitler was not in power when the conflict erupted in Asia and he was certainly dead before it ended His armies did not fight in multiple theaters his empire did not span the Eurasian continent and he did not inherit any of the spoils of war That central role belonged to Joseph Stalin The Second World War was not Hitler's war it was Stalin's war Drawing on ambitious new research in Soviet European and US archives Stalin's War revolutionizes our understanding of this global conflict by moving its epicenter to the east Hitler's genocidal ambition may have helped unleash Armageddon but as McMeekin shows the war which emerged in Europe in September 1939 was the one Stalin wanted not Hitler So too did the Pacific war of 1941-1945 fulfill Stalin's goal of unleashing a devastating war of attrition between Japan and the Anglo Saxon capitalist powers he viewed as his ultimate adversary McMeekin also reveals the extent to which Soviet Communism was rescued by the US and Britain's self defeating strategic moves beginning with Lend Lease aid as American and British supply boards agreed almost blindly to every Soviet demand Stalin's war machine McMeekin shows was substantially reliant on American material from warplanes tanks trucks jeeps motorcycles fuel ammunition and explosives to industrial inputs and technology transfer to the foodstuffs which fed the Red Army This unreciprocated American generosity gave Stalin's armies the mobile striking power to conquer most of Eurasia from Berlin to Beijing for Communism A groundbreaking reassessment of the Second World War Stalin's War is essential reading for anyone looking to understand the current world order

Stalin Christopher Read, 2016-12-08 This new biography of Stalin offers an accessible and up to date representation of one of the twentieth century's defining figures as well as new insights analysis and illumination to deepen our understanding of his actions intentions and the nature of the power that he wielded Christopher Read examines Stalin's contribution to and impact on Russian and world events in the first half of the twentieth century The biography brings together the avalanche of sources and scholarship which followed the collapse of the system Stalin constructed including the often neglected writings and speeches of Stalin himself In addition to a detailed narrative and analysis of Stalin's rule chapters also cover his early years and humble beginnings in a small town at a remote outpost of the Russian Empire his role in the revolution his relationships with Lenin Trotsky and others in the 1920s and his rise to become one of the most powerful figures in human history The book closes with an account of Stalin's afterlife and legacy both in the immediate aftermath of his death and in the decades since This concise account of Stalin's life is the perfect introduction for students of modern Russian history

The Shakespearean International Yearbook 18 Tom Bishop, Alexa Alice Joubin, 2020-06-15 For its eighteenth volume The Shakespearean International Yearbook surveys the present state of Shakespeare studies addressing issues that are fundamental to our interpretive encounter with Shakespeare's work and his time across the whole spectrum of his literary output Contributions are solicited from among the most active and insightful scholars in the field from both hemispheres of the globe New trends are evaluated from the point of view of established scholarship and emerging work in the field is encouraged Each issue includes a special section under the guidance of a specialist guest editor along with coverage of the current state of the field An essential reference tool for scholars of early modern literature and culture this annual publication captures from year to year current and developing thought in Shakespeare scholarship and theater practice worldwide There is a particular emphasis on Shakespeare studies in global contexts AQA A-level History: Tsarist and Communist Russia 1855-1964 Chris Corin, Terry Fiehn, 2015-07-31 Exam Board AQA Level AS A level Subject History First Teaching September 2015 First Exam June 2016 AQA approved Enhance and expand your students knowledge and understanding of their AQA breadth study through expert narrative progressive skills development and bespoke essays from leading historians on key debates Builds students understanding of the events and issues of the period with authoritative well researched narrative that covers the specification content Introduces the key concepts of change continuity cause and consequence encouraging students to make comparisons across time as they advance through the course Improves students skills in tackling interpretation questions and essay writing by providing clear guidance and practice activities Boosts students interpretative skills and interest in history through extended reading opportunities consisting of specially commissioned essays from practising historians on relevant debates Cements understanding of the broad issues underpinning the period with overviews of the key questions end of chapter summaries and diagrams that double up as handy revision aids Georgian and Soviet Claire P. Kaiser, 2023-01-15 Georgian and Soviet investigates the constitutive capacity of Soviet nationhood and empire The Soviet republic of Georgia located in the mountainous Caucasus region received the same nation building template as other national republics of the USSR Yet Stalin's Georgian heritage intimate knowledge of Caucasian affairs and personal involvement in local matters as he ascended to prominence left his homeland to confront a distinct set of challenges after his death in 1953 Utilizing Georgian archives and Georgian language sources Claire P Kaiser argues that the postwar and post Stalin era was decisive in the creation of a Georgian Georgia This was due not only to the peculiar role played by the Stalin cult in the construction of modern Georgian nationhood but also to the subsequent changes that de Stalinization wrought among Georgia's populace and in the unusual imperial relationship between Moscow and Tbilisi Kaiser describes how the Soviet empire could be repressive yet also encourage opportunities for advancement for individual careers as well as for certain nationalities The creation of national hierarchies of entitlement could be as much about local and republic level imperial imaginations as those of a Moscow center Georgian and Soviet reveals that the

entitled republic level national hierarchies that the Soviet Union created laid a foundation for the claims of nationalizing states that would emerge from the empire's wake in 1991. Today Georgia still grapples with the legacies of its Soviet century and the Stalin factor likewise lingers as new generations of Georgians reevaluate the symbiotic relationship between Soso Jughashvili and his native land.

Joseph Stalin and the Art of Tyranny William Nester, 2025-10-30 Joseph Stalin and the Art of Tyranny examines authoritarian rule revealing how tyrants sustain power through a mix of comfort, terror, love and fear often convincing their subjects of their divine purpose. Such leaders build systems of loyalists and subservient institutions enabling unchecked authority. Joseph Stalin exemplifies this tyranny. As Soviet leader from 1929 to 1953 he implemented totalitarian policies nationalizing industry and agriculture, controlling economic production through five year plans and eliminating dissent through imprisonment, forced labour or execution. His brutal regime caused an estimated 20 million deaths. Despite this grim legacy Stalin's reputation remains divisive. In Western democracies he is remembered as a genocidal dictator but in Russia he often ranks among the most admired historical figures illustrating the paradox of his influence. Stalinism served as a model for Communist regimes in China, Vietnam and Cuba shaping their governance. While many of these nations transitioned toward democracy, countries like Russia, China and North Korea continue to echo Stalinist practices. Modern leaders such as Saddam Hussein, Vladimir Putin and Xi Jinping have adopted similar strategies of control. Joseph Stalin and the Art of Tyranny offers crucial insights into authoritarianism revealing the enduring appeal and devastating impact of totalitarian rule.

Understanding the Cold War Elspeth O'Riordan, 2022-09-29 This book provides an advanced introduction to the Cold War assessing its origins, development and conclusion as a dynamic interaction between superpower confrontation and complex regional and local situations. The evolution of the subject's scholarly debate is discussed throughout and the contest situated alongside enduring historical themes including decolonisation, development, nationalism and globalisation. Regional case studies on Europe, East and Southeast Asia, Latin America and the Middle East illuminate the Cold War's global reach. Thematic analysis considers competition in military, strategic and economic spheres as well as in aspects of culture, ideology, society and Human Rights. The Cold War's transnational elements and facets of international cooperation are also highlighted. The book unpacks the subject's extensive scholarly discourse underlining the interdisciplinary character of today's Cold War historiography and the importance of understanding that its development has been informed by a vibrant interface between international history, international relations and the Cold War itself.

A Practical Guide to Studying History Tracey Loughran, 2017-01-12 PROSE Award Winner 2018 in the Textbook Humanities Category. A Practical Guide to Studying History is the perfect guide for students embarking on degree level study. Russia Christopher J. Ward, John M. Thompson, 2021-07-20 This lucid account of Russian and Soviet history presents major trends and events from Kievan Rus to Vladimir Putin's presidency in the twenty first century Directly addressing controversial topics this book looks at issues such as the impact of the Mongol conquest the paradoxes of Peter the Great the inevitability of the 1917 Revolution the Stalinist terror and the Gorbachev reform effort This new ninth edition has been updated to include a discussion of Russian participation in the War in Donbas eastern Ukraine Russia's role in the Syrian civil war the rise of opposition figure Alexei Navalny Vladimir Putin's confirmation as president for life recent Russian relations with the United States the North Atlantic Treaty Organization NATO and the European Union as well as contemporary social and cultural trends Distinguished by its brevity and supplemented with substantially updated suggested readings that feature new scholarship on Russia and a thoroughly updated index this essential text provides balanced coverage of all periods of Russian history and incorporates economic social and cultural developments as well as politics and foreign policy Suitable for undergraduates as well as the general reader with an interest in Russia this text is a concise single volume on one of the world's most significant lands

On Stalin's Team Sheila Fitzpatrick, 2017-05-30 Explanatory Note Glossary The Team Emerges The Great Break In Power The Team on View The Great Purges Into War Postwar Hopes Aging Leader Without Stalin End of the Road Biographies

We Shall Be Masters Chris Miller, 2021-06-08 An illuminating account of Russia's attempts and failures to achieve great power status in Asia Since Peter the Great Russian leaders have been lured by opportunity to the East Under the tsars Russians colonized Alaska California and Hawaii The Trans Siberian Railway linked Moscow to Vladivostok And Stalin looked to Asia as a sphere of influence hospitable to the spread of Soviet Communism In Asia and the Pacific lay territory markets security and glory But all these expansionist dreams amounted to little In We Shall Be Masters Chris Miller explores why arguing that Russia's ambitions have repeatedly outstripped its capacity With the core of the nation concentrated thousands of miles away in the European borderlands Russia's would be pioneers have always struggled to project power into Asia and to maintain public and elite interest in their far flung pursuits Even when the wider population professed faith in Asia's promise few Russians were willing to pay the steep price Among leaders too dreams of empire have always been tempered by fears of cost Most of Russia's pivots to Asia have therefore been halfhearted and fleeting Today the Kremlin talks up the importance of strategic partnership with Xi Jinping's China and Vladimir Putin's government is at pains to emphasize Russian activities across Eurasia But while distance is covered with relative ease in the age of air travel and digital communication the East remains far off in the ways that matter most Miller finds that Russia's Asian dreams are still restrained by the country's firm

rooting in Europe *Familiar Strangers* Erik R. Scott, 2017 *Familiar Strangers* examines how the Soviet empire was built and ultimately dismantled by ethnic outsiders Scott retells Soviet history from the perspective of the socialist state's internal Georgian diaspora illuminating processes of mobility within Soviet borders and offering an understanding of empire that transcends the divide between colonizer and colonized **The Shortest History of the Soviet Union** Sheila

Fitzpatrick, 2022-09-06 In 1917 Bolshevik revolutionaries came to power in the war-torn Russian Empire in a way that defied all predictions including their own Scarcely a lifespan later in 1991 the Soviet Union collapsed as accidentally as it arose The decades between witnessed drama on an epic scale the chaos and hope of revolution famines and purges hard-won victory in history's most destructive war and worldwide geopolitical conflict all entwined around the dream of building a better society This book is a lively and authoritative distillation of this complex history told with vivid details a grand sweep and wry wit The acclaimed historian Sheila Fitzpatrick chronicles the Soviet Age its rise reign and unexpected fall as well as its afterlife in today's Russia She underscores the many ironies of the Soviet experience An ideology that claimed to offer humanity the reins of history wrangled with contingency An avowedly internationalist and anti-imperialist state birthed an array of nationalisms And a vision of transcending economic and social inequality and injustice gave rise to a country that was in its way surprisingly normal Moving seamlessly from Lenin to Stalin to Gorbachev to Putin *The Shortest History of the Soviet Union* provides an indispensable guide to one of the twentieth century's great powers and the enduring fascination it still exerts The Square and the Tower Niall Ferguson, 2019-01-22 The instant New York Times bestseller A brilliant recasting

of the turning points in world history including the one we're living through as a collision between old power hierarchies and new social networks Captivating and compelling The New York Times Niall Ferguson has again written a brilliant book In 400 pages you will have restocked your mind Do it The Wall Street Journal *The Square and the Tower* in addition to being provocative history may prove to be a bellwether work of the Internet Age Christian Science Monitor Most history is hierarchical it's about emperors presidents prime ministers and field marshals It's about states armies and corporations It's about orders from on high Even history from below is often about trade unions and workers parties But what if that's simply because hierarchical institutions create the archives that historians rely on What if we are missing the informal less well documented social networks that are the true sources of power and drivers of change The 21st century has been hailed as the Age of Networks However in *The Square and the Tower* Niall Ferguson argues that networks have always been with us from the structure of the brain to the food chain from the family tree to freemasonry Throughout history hierarchies housed in high towers have claimed to rule but often real power has resided in the networks in the town square below For it is networks that tend to innovate And it is through networks that revolutionary ideas can contagiously spread Just because conspiracy theorists like to fantasize about such networks doesn't mean they are not real From the cults of ancient Rome to the dynasties of the Renaissance from the founding fathers to Facebook *The Square and the Tower* tells the story of the rise

fall and rise of networks and shows how network theory concepts such as clustering degrees of separation weak ties contagions and phase transitions can transform our understanding of both the past and the present Just as The Ascent of Money put Wall Street into historical perspective so The Square and the Tower does the same for Silicon Valley And it offers a bold prediction about which hierarchies will withstand this latest wave of network disruption and which will be toppled
