Prepare to Chair Gretchen Oltman, Jeanne L. Surface, Kay Keiser, 2019-05-24 Leading

the thesis or dissertation process can be a challenging and rewarding experience. However, serving as a doctoral dissertation or master's thesis chair is often a role assumed with very little faculty development and a lot of guesswork. Many new and even experienced chairs rely on the secondhand advice of seasoned faculty or on their own lived experiences as graduate students, both good and bad. This can lead to confusion, frustration, and contentious relationships. Without a chairperson who is invested and who has a clear set of best practices, both the chair and the student are left guessing as to the best course to proceed. This book provides a clear set of best practices for the dissertation or thesis chairperson by providing hands-on tools, real-life illustrations, and practical advice for any faculty member guiding and coaching the student through the thesis or dissertation process.

A Concise Guide to Writing a Thesis or Dissertation Halyna M. Kornuta, Ron W. Germaine, 2019-04-11

A Concise Guide to Writing a Thesis or Dissertation provides clear, succinct, and intentional guidelines about organizing and writing a thesis or dissertation. Part I provides an overview for writing a thesis or dissertation. It describes the big picture of planning and formatting a research study from identifying a topic to focusing on writing quality. Part II describes the framework and substance of a research study. It models the pattern generally found in a formal five-chapter research study. Each chapter of a thesis or dissertation has a specific purpose, and this book focuses on each in an easy-to-follow structure. Chapter One reviews the headings and contents expected in the introduction of a study. Chapter Two provides advice for writing a literature review. Chapter Three discusses what to include when describing the methodology. These first three chapters form the proposal section of a study. Two additional chapters present results. Chapter Four and provide discussion and conclusions. Chapter Five. Appendices offer resources for instructors and students, including a rubric for evaluating writing exercises to strengthen skills in APA format, sample purpose statements, a research planning organizer, and a guide for scholarly writing. The book is designed overall to be a practical guide and resource for students for their thesis or dissertation process. Note to readers: Due to publishing limitations, some of the titles within the book do not accurately conform with APA format. For precise APA format, please see the APA manual 2010, pp. 62-63, or refer to Table 1.1, p. 8, or Table D.1, p. 107, in this book.
