*A Situated Theory of Agreement* Michael Barlow, 2014-01-10 Typical cases of agreement are easy to identify but where the boundaries of agreement lie depend on what aspects of the agreement relation are considered to be defining properties It is a short step from viewing agreement in the traditional way as a matching of features to defining agreement as any relation that ensures consistency of information in two separate structures This book takes as its topic agreement as it is traditionally conceived one that only involves morphosyntactic categories      **Syntactic Processing** Carlos Acuña-Fariña, 2023-07-31

This book provides an overview of the structures topics and main theories of syntactic processing It covers the last 40 years of sentence level psycholinguistic research and debates and makes it accessible to both theoretical linguists and experimental psychologists Tying linguistically relevant issues to psycholinguistic theory this book Covers the processing of the grammatical phenomena adjunction agreement and gap filling and discusses the relationship between grammars and parsers Discusses experimental work and theories demonstrating how psychologists have made real strides in understanding language and how studying the processing of syntactic structure is the same as studying the nature of language Explores the key theories of psycholinguistics including recent developments Explains the different methodologies of sentence processing such as eye tracking and electroencephalography Bridging the gap between psycholinguistic research and the study of language this book is essential reading for advanced students and scholars of linguistics and experimental psycholinguistics as well as cognitive science and psychology      **The Interplay of Variation and Change in Contact Settings** Isabelle

Léglise, Claudine Chamoreau, 2013 This volume is at the cross roads between two research traditions dealing with language change contact linguistics and language variation and change It starts out from the notion that linguistic variation is still a little researched area in most contact induced language change studies Intending to fill this gap it offers a rich panorama of case studies and approaches dealing with linguistic variation in contact settings It concentrates both on monolingual data tracing variation and contact beneath surface homogeneity and on bilingual data such as code switching and other forms of variation to trace their underlying regularities It investigates the relationship between variation and change in language

contact settings The book will be relevant for students and researchers in contact linguistics sociolinguistics language variation and change sociology of language descriptive linguistics and linguistic typology Language Development and Disorders in Spanish-speaking Children Alejandra Auza Benavides, Richard G. Schwartz, 2017-06-13 Prominent researchers from the US Mexico Chile Colombia and Spain contribute experimental reports on language development of children who are acquiring Spanish The chapters cover a wide range of dimensions in acquisition comprehension and production monolingualism and bilingualism typical development children who are at risk and children with language disorders phonology semantics and morphosyntax These studies will inform linguistic theory development in clinical linguistics as well as offer insights on how language works in relation to cognitive functions that are associated with when children understand or use language The unique data from child language offer perspectives that cannot be drawn from adult language The first part is dedicated to the acquisition of Spanish as a first or second language by typically developing children the second part offers studies on children who are at risk of language delays and the third part focuses on children with specific language impairment disorders and syndromes Language, Cognition and Gender Alan Garnham, Jane Oakhill, Lisa von Stockhausen, Sabine Sczesny, 2016-08-08 Gender inequality remains an issue of high relevance and controversy in society Previous research shows that language contributes to gender inequality in various ways Gender related information is transmitted through formal and semantic features of language such as the grammatical category of gender through gender related connotations of role names e g manager secretary and through customs of denoting social groups with derogatory vs neutral names Both as a formal system and as a means of communication language passively reflects culture specific social conditions In active use it can also be used to express and potentially perpetuate those conditions The questions addressed in the contributions to this Frontiers Special Topic include how languages shape the cognitive representations of gender how features of languages correspond with gender equality in different societies how language contributes to social behaviour towards the sexes how gender equality can be promoted through strategies for gender fair language use These questions are explored both developmentally across the life span from childhood to old age and in adults The contributions present work conducted across a wide range of languages including some studies that make cross linguistic comparisons Among the contributors are both cognitive and social psychologists and linguists all with an excellent research standing The studies employ a wide range of empirical methods from surveys to electro physiology The papers in the Special Topic present a wide range of complimentary studies which will make a substantial contribution to understanding in this important area **The Grammar of Multilingualism** Artemis Alexiadou, Terje Lohndal, 2016-10-31 This volume investigates the nature of grammatical representations in speakers who master multiple languages Since the early days of modern formal approaches to grammar most work has been based on the language of monolingual humans Less work has been conducted based on data from speakers who possess more than one language Although important insights have been gained from a monolingual focus

there is every reason to believe that bi and multilingual data can inform linguistic theory A lot of ongoing work demonstrates that this is indeed the case and the current volume contributes to this growing literature Thus the research topic addresses a number of questions relating to grammatical structures in multilingual speakers as well as the methodological issues that arise in the context of studying such speakers A better understanding of the grammatical sides of multilingualism is crucial for understanding the human language capacity and in turn for offering better advice to the public concerning issues of language choice for multilingual children and adults education and language deficits in multilingual individuals

**Cognitive Linguistics: Basic Readings** Dirk Geeraerts, 2008-08-22 Over the past decade Cognitive Linguistics has grown to be one of the most broadly appealing and dynamic frameworks for the study of natural language Essentially this new school of linguistics focuses on the meaning side of language linguistic form is analysed as an expression of meaning And meaning itself is not something that exists in isolation but it is integrated with the full spectrum of human experience the fact that we are embodied beings just as much as the fact that we are cultural beings Cognitive Linguistics Basic Readings brings together twelve foundational articles each of which introduces one of the basic concepts of Cognitive Linguistics like conceptual metaphor image schemas mental spaces construction grammar prototypicality and radial sets The collection features the founding fathers of Cognitive Linguistics George Lakoff Ron Langacker Len Talmy Gilles Fauconnier and Charles Fillmore together with some of the most influential younger scholars By its choice of seminal papers and leading authors Basic Readings is specifically suited for an introductory course in Cognitive Linguistics This is further supported by a general introduction to the theory and specifically the practice of Cognitive Linguistics and by trajectories for further reading that start out from the individual chapters

**Grammatical development in second languages. Exploring the boundaries of Processability Theory** Camilla Bettoni, Bruno Di Biase, 2015-08-07 Processability Theory is Manfred Pienemann's highly cited psycholinguistic theory of Second Language Acquisition offering a transitional paradigm that accounts specifically for the development of grammar This volume expands on PT's explicit falsifiable and universal definition of developmental stages and proposes a fresh interpretation of earlier achievements b explicit treatment of the development of syntax and its interface with discourse pragmatic motivations and c numerous pointers for future studies Part I of the volume introduces the editors' new approach to the theory In part II it offers a finer grained staging of L2 development with reference to three typologically different languages English Italian and Japanese Part III explores languages Russian Serbian issues Spanish differential object marking German V2 in declaratives vs questions populations L2 in autistic learners and applications L2 teaching through CALL not previously treated in PT

*Teaching Interpreting and Live Subtitling* Carlo Eugeni, Martin Ward, Callum Walker, 2024-12-16 Teaching Interpreting and Live Subtitling Contexts Modes and Technologies provides a cross section of multinational perspectives on teaching various dimensions of interpreting and live subtitling both within dedicated programmes and as part of individual modules on interpreting and or live subtitling adjacent programmes

Interpreting training and live subtitling training have been undergoing rapid and far reaching transformations in recent years because of technological advances and the sweeping shifts in the contexts within which they seek to mediate ultimately bringing about new modes This volume covers the broad spectrum of interpreting and live subtitling trainings and discusses the possibility of how a more unified approach to training for live subtitlers and interpreters could lead to a future where the topics merge to become a single complementary specialised stream of training that brings live subtitling equally into the forefront of the translation teaching field The book provides an overview of the role played by technology in interpreting in general and uses up to date perspectives and research to ensure that interpreting and live subtitling training remains robust and resilient far into the 21st century It will be of particular interest to professionals scholars and teachers of translation studies and interpreting studies

Functional Categories in Language Acquisition Annette Hohenberger, 2011-04-20 This study investigates the acquisition of Functional Categories e g INFL AGR TNS DET COMP from the perspective of self organization in generative grammar Language is conceived of as a dynamical system which evolves in time and bifurcates when critical thresholds are reached The emergence of syntax as evidenced by the acquisition of Functional Categories is the major bifurcation in child language acquisition Target values of syntactic parameters are attractors which children approach on individual trajectories A proposed tripartite scenario of change from a simple stable state A via symmetry breaking in a liminal phase B characterized by variation to a new complex stable state C accounts for the dynamics in early grammatical development Traditional generative issues such as the acquisition of case marking finiteness V2 and wh questions are discussed as well as new issues such as functional neologisms and sentential blends Dynamical notions like precursor oscillation symmetry breaking and trigger are important explanatory tools The growing child phrase marker is a fractal mental object which represents syntactic information by way of self similar extended projections The book addresses researchers in language acquisition from various theoretical camps generative functional connectionist by giving new answers to old questions in the light of a novel challenging theory self organization
