Dr. W. Smith's Dictionary of the Bible ... Revised and Edited by ... H. B. Hackett, with the Coöperation of E. Abbot William Smith,1868 The Indigestions Thomas King Chambers,1870 **The Origin of Species** Charles Darwin,2010-11-24 The theories propounded by Charles Darwin in The Origin of Species have had a profound and revolutionary effect not only on biology but also on philosophy history and theology His concept of natural selection has created eruptive disputes among scientists and religious leaders of his time and ours The phenomenal importance of his brilliant work is universally recognized but the present volume marks the first scholarly attempt to compile a complete variorum edition of The Origin of Species covering all of the extensive variants in the six texts published between 1859 and 1872 Darwin s changes were extensive His book grew by a third as he rewrote many passages four or five times and in this edition Morse Peckham has recorded every one of those changes A book of such distinctive dimensions on a subject of such profound importance will be of intense interest to historians of biology evolution science literature and cultural development It will be an invaluable aid to the clarification and full comprehension of this complex and renowned scientific classic **Things Japanese, Being Notes on Various Subjects Connected with Japan for the Use of Travellers and Others** Basil Hall Chamberlain,1898 **The Athenaeum** ,1901 **Wrong-Doing, Truth-Telling** Michel Foucault,2014-06-04 Three years before his death Michel Foucault gave a series of lectures at the Catholic University of Louvain that have remained relatively unknown until only recently Entitled Wrong Doing Truth Telling these lectures provides the missing link between Foucault s early work on sexuality and punishment and his later work on Greek and Roman antiquity Ranging broadly from Homer to the 20th century Foucault traces how the early ethical acts of truth telling in ancient Greece gradually metamorphosed into acts of self incrimination in monastic times and ultimately into the birth and rise of psychiatry as the foundation of modern penology criminology and criminal justice For Foucault self incrimination no longer did the work necessary to quell justice because by the 19th century we wanted to know more than just the fact of wrongdoing we wanted to know who the criminal was not just whether the accused committed the crime but what it was about him that made him commit the crime An avowal of wrong doing was no longer sufficient psychiatric expertise was now necessary and that development marks the birth of discipline and modern criminal justice made so famous by Foucault Athenaeum and Literary Chronicle James Silk Buckingham,John Sterling,Frederick Denison Maurice,Henry Stebbing,Charles Wentworth Dilke,Thomas Kibble Hervey,William Hepworth Dixon,Norman Maccoll,Vernon Horace Rendall,John Middleton Murry,1860 **On the Origin of Species by Means of Natural Selection.
