An Orthodox Festival Book in the Habsburg Empire Jelena Todorovic, 2006 A transcription and translation of Zaharje Orfelin's 1757 festival book Festive Greeting to Mojsej Putnik forms for the core of this study It is one of the most comprehensive accounts of the festival life of the Orthodox hierarchy in the Habsburg lands Year of Promise Rudolph Moseley Jr., 2012-12-29 The Book Year of Promise is a collection of the many precious promises that are found in the Word of God This book is comprised of 365 promises in 7 of the most popular translations of the bible These translations help in the acquiring the full magnitude and depth of each promise This is a valuable collection of promises that will strengthen the walk of any believer My prayer is that as you read and meditate on the Word of God your faith will grow *The Letters of Vincent van Gogh* Patrick Grant, 2014-05-01 When he died at the age of thirty seven Vincent van Gogh left a legacy of over two thousand artworks for which he was justly famous But van Gogh was also a prodigious writer of letters more than eight hundred of them addressed to his parents to friends such as Paul Gauguin and above all to his brother Theo His letters have long been admired for their exceptional literary quality and art historians have sometimes drawn on some of the letters in their analysis of the paintings And yet to date no one has undertaken a critical assessment of this remarkable body of writing not as a footnote to the paintings but as a highly sophisticated literary achievement in its own right Patrick Grant's long awaited study provides such an assessment and as such redresses a significant omission in the field of van Gogh studies As Grant demonstrates quite apart from furnishing a highly revealing self portrait of their author the letters are compelling for their imaginative and expressive power as well as for the perceptive commentary they offer on universal human themes Through a subtle exploration of van Gogh's contrastive style of thinking and his fascination with the notion of imperfection Grant illuminates gradual shifts in van Gogh's ideas on religion ethics and art He also analyzes the metaphorical significance of a number of key images in the letters which prove to yield unexpected psychological and conceptual connections and probes the relationships that surface when the letters are viewed as a cohesive literary product The result is a wealth of new insights into van Gogh's inner landscape **A selection from the spiritual letters of s. alternatives to the current situation      **Angel Thinking** Steffen Hartmann,2025-04-21 Over the course of the last decades there has been an increasing demand by people for spiritual experience whether it involves elemental beings past incarnations or encounters with angels But how should we distinguish between reality and illusion in such perceptions particularly when efforts are often focused on instantaneous experience Is it really possible to build a scientific foundation for metaphysics today And what role might thinking play in such a truly contemporary spirituality There is a tradition traceable to Aristotle and leading to Rudolf Steiner that seeks to establish metaphysics as a science Connecting with this noetic practise Steffen Hartmann argues that the sure path of personal development begins with pure thought and meditation Only then under the right conditions does it lead to spiritual experience Through developing our mental faculties to the point where we can properly evaluate such experience we build a new foundation for understanding the I our essential core Self awareness of the I in pure thinking is the eye of the needle through which we should pass In thought we can even unite with the essence of the angels By enriching our thinking we can access as conscious mindful individuals the realm of angelic beings Angels are messengers of light In this book the angels themselves are shining their light in the writings of Steffen Hartmann Johannes Greiner The strength of this text lies in its purposeful progression It is like a guided tour up a mountain that after a lot of effort offers a wonderful panoramic view Matthias Bideau *Die Drei      Handbook of Local Anesthesia, 7e: South Asia Edition-E-book* Stanley F. James were segregated to the R B charts or covered by pop singers in the early and mid 1950s but burst into prominence in the last part of the decade and well into the 1960s White singers on the other hand excelled in the early 1950s but saw their careers decline with the advent of rock music In this volume Bergsman takes an encyclopedic look at both the renowned and the sadly faded stars of the 1950s placing them and their music back in the spotlight The Two Reformations Heiko A. Oberman,2008-10-01 In this last collection of his vital controversial and accessible writings Heiko A Oberman seeks to liberate and broaden our understanding of the European Reformation from its origins in medieval philosophy and theology through the Puritan settlers who brought Calvin s vision to the New World Ranging over many topics Oberman finds fascinating connections between aspects of the Reformation and twentieth century history and thought most notably the connection to Nazism and the Holocaust He revisits his earlier work on the history of anti Semitism rejects the notion of an unbroken line from Luther to Hitler to the Holocaust and offers a new perspective on the Christian legacy of anti Semitism and its murderous result in the twentieth century Oberman demonstrates how the simplifications and rigidities of modern historiography have obscured the existential spirits of such great figures as Luther and Calvin He explores the debt of both Luther and Calvin to medieval religious thought and the impact of diverse features of the long fifteenth century including the Black Death nominalism humanism and the Conciliar Movement on the Reformation The Athenaeum ,1860
