### **Failure to Flourish** Clare

Huntington,2014-05-20 Exploring the connection between families and inequality Failure to Flourish How Law Undermines Family Relationships argues that the legal regulation of families stands fundamentally at odds with the needs of families Strong stable positive relationships are essential for both individuals and society to flourish but from transportation policy to the criminal justice system and from divorce rules to the child welfare system the legal system makes it harder for parents to provide children with these kinds of relationships exacerbating the growing inequality in America Failure to Flourish contends that we must re orient the legal system to help families avoid crises and when conflicts arise intervene in a manner that heals relationships To understand how wrong our family law system has gone and what we need to repair it Failure to Flourish takes us from ancient Greece to cutting edge psychological research and from the chaotic corridors of local family courts to a quiet revolution under way in how services are provided to families in need Incorporating the latest insights of positive psychology and social science research the book sets forth a new more emotionally intelligent vision for a legal system that not only resolves conflict but actively encourages the healthy relationships that are at the core of a stable society

On Target Noah S. Schwartz,2022-08-31 The National Rifle Association NRA is an important actor in the American gun debate While popular explanations for the group s influence often focus on the NRA s lobbying and campaign donations it receives lesser attention for the mass mobilization efforts that make these political endeavours possible On Target explores why the NRA is so influential and how we can understand the group s impact on firearms policy in the United States The book looks at how the NRA both draws upon and shapes historical meta narratives regarding the role of firearms in America s national identity and how this is part of a larger effort to expand the community of gun owners Noah S Schwartz demonstrates how the NRA portrays a vision of the past through events such as its annual meeting communications such as American Rifleman magazine and NRA TV and points of contact including the National Firearms Museum Based on fieldwork in Indiana and Virginia including participant observation at NRA events and firearm safety classes thematic analysis of audio visual material and interviews with NRA executives and members On Target sheds light on the ways in which the NRA tells stories to build and mobilize a politically motivated network of gun owners
