

# Format Interview Guide

The objective is to gain insight into the target group, singles between ages 25-30 and their view of Nepal so that the research questions can be answered. The interview is divided into different topics with its sub-topics.

Main research question: How does the target group, singles between 25-30 years old perceive Nepal as a destination for travel

---

Who: between 25-30, single, working, have been to or want to go to Nepal

Where & How: online by using Teams

When: before Christmas holiday and new year-> winter

What: interview

---

## Information respondent and interview

- Date:
- Starting time:
- Location:
- Name respondent:
- Relevant personal details: \_\_

## Introduction of the interviewer and interview objective

- Introduction  
Hello, welcome to the interview. Thank you for making time to do this interview with me.
- Research objective  
I am doing this interview with you because our group wants to find out the image and perception you (25-30, single, working and have been or want to go to Nepal) have of Nepal as holiday/travel destination. We want to know more about your image and perception, because you are apart of our target group.
- Duration  
The duration of this interview is going to be around 30-45 minutes, this all depends on how the interview goes. It would be very delightful if you tried to answer my questions with as much detail as possible. Because we can use all the information we get.
- Anonymity  
Just to be clear, you are okay with me recording this interview, and me writing down your answers? We need to record our interview so we can listen back to the audio and write down the entire interview.
- Recording  
Also, to be clear this information is only for our research and will not be shared anywhere. It is strictly for us and nothing else will be done with it, other than my group using it for our research.
- Questions of respondent  
Now, before we begin do you have any questions? Anything you would like to be enlightened about before we start the interview.

Idea-Based Learning Edmund J. Hansen, 2023-07-03 Synthesizing the best current thinking about learning course design and promoting student achievement this is a guide to developing college instruction that has clear purpose is well integrated into the curriculum and improves student learning in predictable and measurable ways The process involves developing a transparent course blueprint focused on a limited number of key concepts and ideas related tasks and corresponding performance criteria as well as on frequent practice opportunities and early identification of potential learning barriers Idea based Learning takes as its point of departure the big conceptual ideas of a discipline that give structure and unity to a course and even to the curriculum as opposed to a focus on content that can lead to teaching sequences of loosely related topics and aligns with notions of student centered and outcomes based learning environments Adopting a backwards design model it begins with three parallel processes first identifying the material that is crucial for conceptual understanding second articulating a clear rationale for how to choose learning outcomes based on student needs and intellectual readiness and finally aligning the learning outcomes with the instructional requirements of the authentic performance tasks The resulting syllabi ensure cohesion between sections of the same course as well as between courses within a whole curriculum assuring the progressive development of students skills and knowledge Key elements of IBL include Helping students see the big picture Building courses around one or more authentic performance tasks that illuminate the core concepts of the discipline Clearly identifying performance criteria for all tasks Incorporating practice in the competencies that are deemed important for students success By placing the onus of learning on the student liberating faculty to take on the role of learning coaches Designing tasks that help students unlearn simplistic ideas and replace them with improved understandings Edmund Hansen expertly guides the reader through the steps of the process providing examples along the way and concluding with a sample course design document and syllabus that illustrate the principles he propounds

*Acquisitions and Open Source Software Development* Michael Vetter, 2021-08-10 Participation of firms in Open Source Software OSS development is steadily increasing In fact a substantial part of OSS projects today are developed in informal collaboration between firms and

a community of voluntary contributors As more and more firms are active in OSS acquisitions of firms active in OSS development occur increasingly often Yet despite the economic and practical importance of OSS research has so far overlooked this phenomenon This dissertation explores this phenomenon of acquisitions of firms active in OSS development Michael Vetter examines the role of OSS in the pre acquisition phase and the impact of acquisitions on OSS development in the post acquisition phase Using qualitative and quantitative research methods the author examines acquisition motives acquisition likelihood timing of acquisitions and outcomes of acquisitions and discuss mechanisms behind variations across acquisitions The findings from the studies contribute to research on acquisitions and OSS development while also providing insights into how to leverage OSS in target search selection and evaluation processes as well as how to effectively manage acquisitions of firms active in OSS and the communities around them **Metatheory and Interviewing** Emily J.

Haas, Marifran Mattson, 2014-12-11 Metatheory and Interviewing Harm Reduction and Motorcycle Safety in Practice describes and applies a unique approach for advancing harm reduction theory Emily J Haas and Marifran Mattson argue that using harm reduction as a metatheory to guide qualitative interviews strengthens the use and acceptance of harm reduction and the application of constructs within health theories Through analysis of in depth interviews with respective participants at risk motorcyclists which are informed by harm reduction metatheory the authors examine how this unique approach to interviewing can be used to link metatheory theory methodology and ultimately application and translation of research results Metatheory and Interviewing culminates with a discussion of how the way we conduct and analyze interviews facilitates a deeper more intimate conversation with research participants by encouraging them to incorporate the same overarching harm reduction framework to provide feedback about changing specific health behaviors Scholars of health communication and research will understand the critical role of a humanistic attitude and pragmatic communication with participants as well as the importance of further extrapolating these strategies to their broader target audience
