

TASK 2: INSTRUCTION COMMENTARY

Respond to the prompts below (no more than 6 single-spaced pages, including prompts) by typing your responses within the brackets following each prompt. Do not delete or alter the prompts. Commentary pages exceeding the maximum will not be scored. You may insert no more than 2 additional pages of supporting documentation at the end of this file. These pages may include graphics, texts, or images that are not clearly visible in the video or a transcript for occasionally inaudible portions. These pages do not count toward your page total.

1. Which lesson or lessons are shown in the video clips? Identify the lesson(s) by lesson plan number. [Lesson one and two are shown in the video clips]

2. **Promoting a Positive Learning Environment**

Refer to scenes in the video clips where you provided a positive learning environment.

- a. How did you demonstrate mutual respect for, rapport with, and responsiveness to students with varied needs and backgrounds, and challenge students to engage in learning?

[I demonstrated a mutual respect for students by calling them by their first names when I called on them and during discussion. I also facilitated a positive learning environment when students were being assessed by doing the formative assessment on a small group, away from other students so that the students being assessed felt comfortable. During the lesson, I stop and ask questions and call on the students who are displaying the agreed upon rules (i.e. voices off, hands raised). To further show mutual respect for students, I do not interrupt them when they are talking. Once it was time for students to demonstrate their knowledge of the task, I told students they can work with people at their table. I do this because I know some students struggle and that peer support can help. I build rapport and background knowledge by asking the students have they ever heard of sequencing and I allow students to explain their answer. I remind students of a previous book we read that has sequencing at the end to activate prior knowledge.]

3. **Engaging Students in Learning**

Refer to examples from the video clips in your responses to the prompts.

- a. Explain how your instruction engaged students in developing an essential literacy strategy and related skills.

[After the read aloud I asked students to sequence the events from the story. Hands shot up, which let me know the students are actively engaged and eager to share. Students told and came up to write on the chart part the sequence of events. I made sentence strips for the students aloud with the transition words (first, next, then, and last). Students came down in groups or individually and worked with the sentence strips, which engaged students in developing the essential literacy strategy and related skill. Once students sequenced the sentence strips, I then rearrange the transition words to hear students' response as to if it makes sense or not. I used an inquiry approach by asking students to consider how they knew that it was in the correct order. I avoided asking a yes or no question which forced them to give a rationale for their answer, which promotes critical thinking and builds speaking vocabulary. The students made a sequencing chart which engaged students in developing the essential literacy strategy and related skills, which is comprehension of the text and sequencing the events that accrued in the text.]

- b. Describe how your instruction linked students' prior academic learning and personal, cultural, and community assets with new learning.
