*Occidentalism* Xiaomei Chen, 1995-09-07 Xiaomei Chen offers an insightful account of the unremittingly favorable depiction of Western culture and its negative characterization of Chinese culture in post Mao China from 1978-1988 Chen examines the cultural and political interrelations between the East and West from a vantage point more complex than that accommodated by most current theories of Western imperialism and colonialism Going beyond Edward Said's construction in *Orientalism* of cross cultural appropriations as a defining facet of Western imperialism Chen argues that the appropriation of

Western discourse what she calls Occidentalism can have a politically and ideologically liberating effect on contemporary non Western culture Using China as a focus of her analysis Chen examines a variety of cultural media from Shakesperian drama to Western modernist poetry to contemporary Chinese television She thus places sinology in the general context of Western theoretical discourses such as Eurocentrism postcolonialism nationalism modernism feminism and literary hermeneutics showing that it has a vital role to play in the study of Orient and Occident and their now unavoidable symbiotic relationship Occidentalism presents a new model of comparative literary and cultural studies that reenvisions cross cultural appropriation
