

Research on the Research-based Teaching Mode of Cost Accounting in the Context of Digital Economy

Rui Xie, Houjun Liang

Anhui University of Finance & Economics, Bengbu, Anhui 233030, China

Abstract

Cost accounting is the core course of accounting major, which has strong technical and application, but the existing traditional teaching mode cannot effectively improve students' practical innovation ability, and cannot meet the needs of enterprises for accounting talent upgrading in the era of digital economy. Therefore, this paper introduces research-based teaching into the teaching process of cost accounting, and explores the construction of a cost accounting teaching model that meets the needs of the development of the digital economy for the training of accounting talents.

Keywords

Digital Economy Background; Cost Accounting; Research-based Teaching.

1. Introduction

In recent years, with the advent of the digital economy era with artificial intelligence, big data and other information technologies as the core, the working mode of accounting is undergoing great changes, and at the same time, it has had a huge impact on the traditional accounting teaching model. However, at present, the teaching content of cost accounting is lagging behind, the teaching methods and means are relatively simple, and the training of students' ability to use cost data for analysis and decision-making is neglected, which cannot meet the needs of the development of digital economy for talent training. Research-based teaching is a breakthrough in the existing traditional teaching mode, which enriches the teaching content with the research process and its results, which is conducive to developing students' potential and improving students' practical innovation ability to meet social needs. Therefore, how to constitute this accounting research-based teaching model is an important problem that needs to be solved urgently.

2. The Core Ideas and Characteristics of the Research-based Teaching Model

Since Alexander von Humboldt in Germany proposed the "combination of teaching and research" in the early 19th century, many universities have introduced scientific research methods into teaching, and gradually formed a research-based teaching model. The core idea of the research-based teaching model is to integrate teachers' research-based teaching with students' research-based learning, combine subject knowledge with research methods in the teaching process, inspire and encourage students to actively explore and think, and pay attention to cultivating students' ability to analyze problems independently and innovate. Compared with the traditional teaching mode based on the inheritance of knowledge, the research-based teaching model has its own unique characteristics, which are mainly manifested in the following three aspects.

- Part V: Application and practice of new media in smart teaching; Application of clustering algorithm in intelligent education; resource library; Application of association rule algorithm in intelligent education system.

Cost Management Edward Blocher, David Stout, Gary Cokins, Kung Chen, 2009-10-30. Cost Management: A Strategic Emphasis by Blocher, Stout, Cokins, Chen is the first cost accounting text to offer integrated coverage of strategic management topics in cost accounting. The text is written to help students understand more about management and the role of cost accounting in helping an organization succeed. This text aims to teach management concepts and methods and to demonstrate how managers use cost management information to make better decisions and improve their organizations' competitiveness. In teaching these key management skills, the text takes on a strategic focus. It addresses issues such as: How does a firm compete? What type of cost management information is needed for a firm to succeed? How does the management accountant develop and present this information? This text helps students learn why, when, and how cost information is used to make effective decisions that lead a firm to success. *The Accounting Review* William Andrew Paton, 1928.
