RELIABLE SOURCES

What is a reliable source? A reliable source contains information that can be trusted to be accurate and free of bias. Some great sources include books and online websites and articles.

What should I look for in an online source? Try to use sites ending in .edu, .net, .org, and .gov. Some .com sites are okay, but be careful!

What sources should I avoid online? Stay away from websites that are selling products and websites that seem biased. Also be sure to avoid Wikipedia.

What else should I know about online sources? First, try to check the copyright date on the website. The more recently the information was posted/updated, the better. Second, if you can find out who created the website or wrote the article, try to find out if the person/group is trustworthy. Third, does the information on other sites seem to match the information?

What are the names of some trusted websites? There are many trustworthy, reliable websites. Here are a few of them: Smithsonian Education, The History Channel, Encyclopedic Britannica, National Geographic Kids, History is Fun, and Mount Vernon.
