Creating a Staff-Led Strategic Plan Katy B. Mathuews, Ryan A. Spellman, 2023-06-15 Taking a staff led approach this book helps libraries of all types create their own meaningful and authentic strategic plans while demystifying a process that can bring many benefits to the organization With dwindling budgets to pay for consultants and a growing interest in collaboration across the organization libraries are increasingly taking a do it yourself approach to strategic planning This book takes a step by step approach to grassroots strategic planning for libraries of all types The authors who led a successful strategic planning process at their own library provide practical advice and detailed information to guide library personnel through their own process Topics include aligning with institutional and community values creating vision and mission statements researching stakeholder needs conducting environmental scans collaborative drafting of the plan communication strategies and implementation and assessment of the plan Each chapter helps librarians create a strategic plan for a broad spectrum of libraries including K 12 post secondary public and special libraries A unique feature of the book is its emphasis on the ways in which different library types can collaborate to meet shared goals This book is a one stop shop providing everything library staff will need to create a strategic plan without searching for additional sources Rightshore! Anja Hendel, Wolfgang Messner, Frank Thun, 2008-01-25 Rightshore a registered trademark of Capgemini is about organizing the distributed delivery process that embraces on site nearshore and offshore services This book describes successful global delivery models utilizing industrialized methods to deliver SAP projects from India The first part is devoted to management concepts service offerings and the peculiarities of working together with India The second part features eight case studies from different industries and from around the world describing how India delivery centers have been successfully deployed in SAP development projects The Privacy Engineer's Manifesto Michelle Dennedy, Jonathan Fox, Tom Finneran, 2014-03-04 It is our thesis that privacy will be an integral part of the next wave in the technology revolution and that innovators who are emphasizing privacy as an integral part of the product life cycle are on the right track The authors of The Privacy Engineer's Manifesto The Privacy Engineer's Manifesto Getting from Policy to Code to QA to Value is the first book of its kind offering industry proven solutions that go beyond mere theory and adding lucid perspectives on the challenges and opportunities raised with the emerging personal information economy The authors a uniquely skilled team of longtime industry experts detail how you can build privacy into products processes applications and systems The book offers insight on translating the guiding light of OECD Privacy Guidelines the Fair Information Practice Principles FIPPs Generally Accepted Privacy Principles GAPP and Privacy by Design PbD into concrete concepts that organizations software hardware engineers and system administrators owners can understand and apply throughout the product or process life cycle regardless of development methodology from inception to retirement including data deletion and destruction In addition to providing practical methods to applying privacy engineering methodologies the authors detail how to prepare and organize an

enterprise or organization to support and manage products process systems and applications that require personal information The authors also address how to think about and assign value to the personal information assets being protected Finally the team of experts offers thoughts about the information revolution that has only just begun and how we can live in a world of sensors and trillions of data points without losing our ethics or value s and even have a little fun The Privacy Engineer s Manifesto is designed to serve multiple stakeholders Anyone who is involved in designing developing deploying and reviewing products processes applications and systems that process personal information including software hardware engineers technical program and product managers support and sales engineers system integrators IT professionals lawyers and information privacy and security professionals This book is a must read for all practitioners in the personal information economy Privacy will be an integral part of the next wave in the technology revolution innovators who emphasize privacy as an integral part of the product life cycle are on the right track Foreword by Dr Eric Bonabeau PhD Chairman Icosystem Inc Dean of Computational Sciences Minerva Schools at KGI

Delivering Successful Projects with TSP(SM) and Six Sigma
Mukesh Jain, 2008-11-20 Delivering successful projects means the ability to produce high quality software within budget and on time consistently but when one mentions quality to software engineers or project managers they talk about how impossible it is to eliminate defects from software This assumption is passed on and on until it becomes accepted wisdom with the power of a self fulfilling prophecy And when a project fails to arrive on time or up to standards team members will turn on each other The project got delayed because the engineers did a poor job in development or too much was promised upfront for this short of a timeline In Delivering Successful Projects with TSPSM and Six Sigma A Practical Guide to Implementing Team Software ProcessSM you will learn how to effectively manage the development of a software project and deliver it in line with customer expectations This refreshing volume Offers real world case studies about the author s experience at Microsoft successfully implementing TSP to achieve higher quality software Empowers software developers to take responsibility for project management Explains how Six Sigma and TSP combined can dramatically reduce software defects By applying these principles put forth by one of the most respected names in software development your software team will learn how to function as a team and turn out products where zero defects and on time delivery are the norm
