**WHO manual on sugar-sweetened beverage taxation policies to promote healthy diets** World Health

Organization, 2022-12-13 As the number of countries taxing SSBs increases the available and emerging empirical evidence indicates that SSB taxation can be an effective lever for promoting healthier diets and improving population health This guide is designed to support health and finance ministries in the growing number of countries that are exploring the use of SSB taxation to promote healthy diets advance population health and improve societal welfare Specifically this manual is designed to

1 explain key economic concepts related to SSB taxation for public health personnel and SSB tax advocates to aid effective discussions and negotiations with financial officers and 2 provide finance ministry and health ministry officials with appropriate national level examples in the implementation of SSB excise taxes along with key considerations and strategies for effective SSB tax policy development design implementation and administration

Transfer Pricing and Developing Economies Joel Cooper, Randall Fox, Jan Loeprick, Komal Mohindra, 2017-01-05 Recent years have seen unprecedented public scrutiny over the tax practices of Multinational Enterprise MNE groups Tax policy and administration concerning international transactions aggressive tax planning and tax avoidance have become an issue of extensive national and international debate in developed and developing countries alike Within this context transfer pricing historically a subject of limited specialist interest has attained name recognition amongst a broader global audience that is concerned with equitable fiscal policy and sustainable development Abusive transfer pricing practices are considered to pose major risk to the direct tax base of many countries and developing countries are particularly vulnerable because corporate tax tends to account for a larger share of their revenue This handbook is part of the wider WBG engagement in supporting countries with Domestic Resource Mobilization DRM by protecting their tax base and aims to cover all relevant aspects that have to be considered when introducing or strengthening transfer pricing regimes The handbook provides guidance on analytical steps that can be taken to understand a country's potential exposure to inappropriate transfer pricing transfer mispricing and outlines the main areas that require attention in the design and implementation of transfer pricing regimes A discussion of relevant aspects of the legislative process including the formulation of a transfer pricing policy and the role and content of administrative guidance is combined with the presentation of country examples on the practical application and

implementation of the arm's length principle and on running an effective transfer pricing audit program Recognizing the importance of transfer pricing regulation and administration for the business environment and investor confidence this handbook aims to balance the general objective of protecting a country's tax base and raising additional revenue with investment climate considerations wherever appropriate

Intergenerational Wellbeing and Public Policy Girol Karacaoglu, Jacek B. Krawczyk, Anita King, 2019-01-28  
The distinctive contribution of this book is the formulation of an integrated social environmental and economic framework for public policy This contribution is realised through investigations and conclusions in the following four domains a formal stylised model that provides a platform for an integrated approach to public policy a policy informing simulation model that can be used to operationalise the public policy insights proposed in the stylised model the implications of introducing fundamental or radical uncertainty and complexity into the policy framework and the use of viability theory to demonstrate how one can think of and implement public policy in an uncertain and complex world when the focus of policy needs to shift to building resilience to systemic risks The book's stylised model is constructed by weaving together threads from the wellbeing human needs complex systems sustainable development endogenous economic growth directed technical change and credit based money literatures Throughout the perspective is that of a policy adviser to a wellbeing state as distinct from a welfare state The key linkages or relationships in the model are supported by empirical evidence that draws on the wider literature in related fields

**The Resolution of International Tax Disputes** David Rüll, 2024-06-10  
The number of international tax disputes is constantly increasing This is a logical consequence of the pressure that is exerted on the global tax system by a rise in the number of internationally active and mobile taxpayers and tax competition between states on the one hand On the other hand the implementation of measures to tackle base erosion and profit shifting BEPS by multinational enterprises already gives rise to further disputes and another increase of disputes might arise from the latest reforms of the international tax system namely the Two Pillar Solution to address the tax challenges arising from the digitalisation of the economy Against this background the time is right for an institutionalised international tax dispute resolution mechanism that takes into account the interests of taxpayers states and the public and allows for a swift and binding resolution of international tax disputes exactly what this timely and thoroughgoing book offers A comprehensive overview of existing international tax dispute resolution mechanisms and an analysis of their procedural rules advantages and disadvantages leads to a deeply informed proposal on how they can be further developed in a way that ensures greater fairness and equity for all stakeholders Among the lines of conflict that characterise international tax disputes the author sheds clear light on how improvements in the design of dispute resolution mechanisms may be found This includes these questions How should a

dispute resolution mechanism be structured Should there be a mandatory resolution if the states cannot agree In which way should taxpayers participate in the procedure Should agreements and decisions be published Should there be an institution to administer the procedure The book concludes with a draft convention that would implement the author's suggestions Tax lawyers and other tax professionals worldwide as well as national tax authorities will benefit greatly from this book They will deepen their understanding of the variety of existing tax dispute resolution mechanisms and discover ways to strengthen them Academics will find ample room to reflect on the key design elements of such mechanisms and how to improve them

*Financing Infrastructure* Richard M. Bird, Enid Slack, 2017-12-04 Politicians and citizens universally agree that Canada's urban infrastructure urgently needs work Roads and bridges are overdue for repair aging water systems should be replaced sewage must be adequately treated urban transit needs to be updated and extended and it is necessary that public housing as well as schools health centres and government offices are brought up to current standards But few cities have room to raise additional revenue and the federal and provincial governments to which they turn for financial support are already in deficit so who is going to pay for all of this Bringing together perspectives and case studies from across Canada the US and Europe *Financing Infrastructure* argues that the answer to the question Who should pay should always be users Headed by two of Canada's foremost experts on municipal finance this book provides a closer look at why charging user fees makes sense how much users should pay how to charge fees well and where present processes can be improved and how to convince the politicians and the public of the importance of pricing infrastructure correctly Across the disciplines of public policy urban studies and economics almost no one is looking at the extent to which users should play a role in infrastructure planning *Financing Infrastructure* contends that the users not federal and provincial taxpayers should start paying directly for their cities repairs and expansions Contributors include Richard M Bird University of Toronto Bernard Dafflon University of Fribourg Switzerland Robert D Ebel Local Governance Innovation and Development Harry Kitchen Trent University Jean Philippe Meloche Universit de Montr al Matti Siemiatycki University of Toronto Enid Slack University of Toronto Almos T Tassonyi University of Calgary Lindsay M Tedds University of Victoria Fran ois Vaillancourt Universit de Montr al and Yameng Wang World Bank
