How We Won and Lost the War in Afghanistan Douglas Grindle,2017-11-01 Douglas Grindle provides a firsthand account of how the war in Afghanistan was won in a rural district south of Kandahar City and how the newly created peace slipped away when vital resources failed to materialize and the United States headed for the exit By placing the reader at the heart of the American counterinsurgency effort Grindle reveals little known incidents including the failure of expensive aid programs to target local needs the slow throttling of local government as official funds failed to reach the districts and the United States inexplicable failure to empower the Afghan local officials even after they succeeded in bringing the people onto their side Grindle presents the side of the hard working Afghans who won the war and expresses what they really thought of the U S military and its decisions Written by a former field officer for the U S Agency for International Development this story of dashed hopes and missed opportunities details how America s desire to leave the war behind ultimately overshadowed its desire to sustain victory Purchase the audio edition **PLENTY OF FISH FOR MEN PART 3:*MR. Engaging Student Voices in the Study of Teaching and Learning Carmen Werder, Megan M. Otis, 2023-07-03 This book addresses the all important dimensions of collaboration in the study of learning raised by such questions as Should teachers engage students directly in discussions and inquiry about learning To what extent What is gained by the collaboration Does it improve learning and what do shared responsibilities mean for classroom dynamics and beyond Practicing what it advocates a faculty student team co edited this book and faculty student or former student teams co authored eight of its eleven chapters The opening section of this book explores such dimensions of student voices in the scholarship of teaching and learning SoTL as power and authority in the classroom collaborative meaning making and the role of students as both learners and experts on their own learning It opens up the process of knowledge building to a wider group of participants and expands our conception of who has expertise to contribute for instance recognizing students insider knowledge of themselves as learners Using various institutional models to illustrate these foundational concepts part one provides a context for understanding the detailed examples that follow The case studies in the second half of the volume illustrate how these concepts play out inside and outside the classroom when students shift from serving as research subjects in a SoTL study to working as independent researchers or as partners with faculty in such work as studying curricular design redesign readings requirements and assessment This co inquiry brings the principles and benefits of the broader undergraduate research movement to the topic of teaching and learning It also increases student researchers sense of themselves as independent learners While recognizing the impossibility of engaging every student in the scholarship of teaching and learning in every course the editors and contributors make the case for making such opportunities available as broadly as possible because as this volume also makes clear this is transformational work with the potential to produce paradigm shifts turning points new insights and changes in classroom culture for both faculty and students The contributors demonstrate how they validated student voices in theory method and methodology across a wide variety of disciplines and while engaging with different pedagogies Disciplinary examples include anthropology communication chemistry criminal
