Teaching Languages With Technology Communicative Approaches To Interactive Whiteboard Use:

Teaching Languages with Technology Euline Cutrim Schmid, Shona Whyte, 2014 **Teaching Languages with Technology** Euline Cutrim Schmid, Shona Whyte, 2014-11-03 This book draws on theories of second language acquisition SLA to illustrate how interactive white board technology can be exploited to support language acquisition It examines interaction collaboration and negotiation of meaning and focus on form in the communicative language classroom in primary secondary and vocational schools In recent years new technologies have been incorporated into second and foreign language education as tools for implementing teaching methodologies IWBs have established their role in the field of computer assisted language learning CALL and are an effective and inspiring tool which motivates both teachers and learners Although the number of IWBs in classrooms has rapidly increased over the past decade in many parts of the world teacher training materials and pedagogical support for the design evaluation and implementation of IWB based materials in the foreign language classroom has not kept pace Research also shows that language teachers do not always use IWBs in pedagogically sound ways There is a real need for the development of training models and examples of good practice which can support teachers in developing the necessary competencies for exploiting the IWB in ways consistent with current theories of language teaching pedagogy This book provides that best practice and gives a full account of in depth research in an accessible manner **Implementing and Researching Technological Innovation in Language Teaching S.**

Whyte, 2015-04-20 Implementing and Researching Technological Innovation in Language Teaching takes a case study approach to investigate the integration of the interactive whiteboard IWB into the teaching of English as a Foreign Language EFL in French schools The study highlights the advantages of collaborative action research for stimulating and supporting language teachers in innovative experimentation and seeks to enhance our understanding of the challenges and opportunities inherent in this process Utilising a framework which can inform further research into innovative practices with other interactive technologies this book offers a research design and instruments suitable for assessing classroom adoption of the IWB In this way the study provides insights into general processes of technological innovation in language teaching and learning which is of relevance to further research and teacher development in today's new learning environments

Computing and ICT in the Primary School Gary Beauchamp, 2016-09-13 Now fully updated to reflect recent changes in the curriculum Computing and ICT in the Primary School encourages teachers and pupils to realise the potential of a full range of ICT and computing resources Tackling computing head on this book enables trainee and experienced teachers to better understand what computing is and how to use ICT effectively in teaching and learning It is not a how to guide or a collection of lesson plans but instead balances research based theory with everyday experiences challenging readers to understand teaching methods and how they translate into a range of suitable teaching and learning strategies using ICT This book offers primary teachers the knowledge skills and confidence to plan teach and assess creatively to enhance learning

across the whole curriculum This second edition includes updates of all chapters and completely new chapters on mobile technologies social media and modern foreign languages Gary Beauchamp places theory and practice hand in hand providing a uniquely relatable resource based on his own teaching practice classroom experience and research This text is crucial reading for both serving teachers and those in training on undergraduate and PGCE courses Education Studies courses and MA Ed programmes *The Routledge Handbook of Language Learning and Technology* Fiona Farr,Liam Murray,2016-02-26

The exponential growth and development of modern technologies in all sectors has made it increasingly difficult for students teachers and teacher educators to know which technologies to employ and how best to take advantage of them The Routledge Handbook of Language Learning and Technology brings together experts in a number of key areas of development and change and opens the field of language learning by exploring the pedagogical importance of technological innovation The handbook is structured around six themes historical and conceptual contexts core issues interactive and collaborative technologies for language learning corpora and data driven learning gaming and language learning purpose designed language learning resources Led by fundamental concepts theories and frameworks from language learning and teaching research rather than by specific technologies this handbook is the essential reference for all students teachers and researchers of Language Learning and TESOL Those working in the areas of Applied Linguistics Education and Media Studies will also find this a valuable book **The Routledge Handbook of Teaching English to Young Learners** Sue Garton,Fiona Copland,2018-10-10
