Teaching Simplified Workbook:

Teaching Simplified Workbook Meagan Wright, 2014-12-29 If learning is one of humanity's greatest pursuits then in turn we need to make sure that teaching is one of our greatest strengths We predominantly learn about teaching in terms of its existence within a SYSTEM teaching in a math department teaching at a university teaching as a profession etc This is very valuable information but there needs to be more instruction regarding teaching as a SKILL More specifically despite its fundamental nature teaching as a skill in its most basic foundational form is almost obsolete Teaching Simplified Workbook addresses this deficiency by introducing these central foundational principles while carefully guiding its application to specific teaching opportunities With helpful prompts and supplementary templates every teacher will significantly improve their skill of effective teaching by learning and applying the basic fundamental and universal tenets of teaching
