# Teammate Audit User Manual

**Jae K. Shim, Joel G. Siegel**

## **Teammate Audit User Manual:**

*Corporate Controller's Handbook of Financial Management (2008-2009)* Jae K. Shim, Joel G. Siegel, Nick Dauber, 2008  
CCH's Corporate Controller's Handbook of Financial Management is a comprehensive source of practical solutions, strategies, techniques, procedures, and formulas covering all key aspects of accounting and financial management. Its examples, checklists, step-by-step instructions, and other practical working tools simplify complex financial management issues and give CFOs, corporate financial managers, and controllers quick answers to day-to-day questions.

**Audit Effectiveness** Kamil Omoteso, 2016-04-08  
In *Audit Effectiveness*, Dr. Kamil Omoteso examines how information technology is changing the landscape for the audit profession as IT tools and techniques continue to be developed for auditors in the pursuit of quality, efficiency, and effectiveness. In addition to shedding light on practical subjects such as audit automation, continuous online auditing, and computer auditing, this book introduces some theory that helps explain the motivation for the use of new tools and techniques and assists understanding of their impact on the quality of audit judgment. The book proposes a three-layered model: an integration of contingency, socio-technical systems, and structuration theories for a comprehensive understanding of IT's impact on audit. The model advocates that the use of IT in audits is a function of certain contingent factors that determine an optimal mix of human skills and technological capabilities, which would lead to changes in the nature of auditors' roles and outputs and audit organizations' structures. Dr. Omoteso puts forward an audit automation maturity model that can help audit firms/ departments to understand their current level of IT integration and how to systematically enhance their capabilities with a view to meeting modern IT challenges, taking them from the position of mere followers of technology to that of effective leaders of technology. *Audit Effectiveness* is for anyone practicing in auditing or accounting automation, as well as for those with an academic or research interest in the challenges posed by technological advances for auditors in particular and for managers in general.
