Realization improvement in a seasonally weak quarter

- Strong beat led by sequentially higher realization:** JK Lakshmi Cement's (JKLC) volumes fell 2% YoY to 1.72m tons (ex-east, volume declined 8% YoY) due to heavy rains in its focus markets. Realizations rose 3.5% YoY (+4.7% QoQ) as price hikes in June-16 largely sustained through 2QFY17. EBITDA increased 37% YoY to INR0.94b (margin: 14.3%; +3.7pp YoY, -0.8pp QoQ), translating into EBITDA/ton of INR546 (+INR154/t YoY, flat QoQ) due to higher prices and cost savings. Revenue grew 2% YoY to INR6.6b, while net profit was INR249m.
- Cost-reduction initiatives at eastern unit to improve profitability:** The Durg plant, despite operating at ~90-95% utilization, has been only breaking even at EBITDA level. Management has planned various cost-saving initiatives like (a) Setting up of waste heat recovery system; (b) Relocating captive power plant from north; and (c) Laying of conveyor belt to reduce cost of operations over next 18 months. Total capex toward cost-reduction effort would be INR4b.
- Consolidated capacity to increase to 13m tons by FY18:** JKLC's consolidated capacity has increased to 10m tons with commissioning of its Surat grinding unit in 2QFY17. It is further increasing its Durg capacity by 0.9m tons at estimated capex of INR300m. Integrated capacity of 1.6m tons at its subsidiary Udaipur unit should be commissioned by Dec-16 at estimated capex of INR8b.
- Market mix favorable:** We continue remaining positive on the company due to its higher exposure to north/central markets, which we believe are likely to see highest realization increase due to utilization improvement. However, turnaround of eastern operations would be a key monitorable. The stock trades at 15x/8x FY17/18E EV/EBITDA and 115/99 USD/ton. We value JKLC at EV of 10x FY18 EV/EBITDA (implied EV of USD 130), translating to INR606/share. Maintain Buy.
