This is the Canon Joan Anim-Addo, Deirdre Osborne, Kadija Sesay, 2021-10-28 A vital and timely introduction to some of the best books I've ever read Perfectly curated and filled with brilliant literature Nikesh Shukla The ultimate introduction to post colonial literature for those who want to understand the classics and the pioneers in this exciting area of books Symeon Brown These are the books you should read This is the canon Joan Anim Addo Deirdre Osborne and Kadija Sesay have curated a decolonized reading list that celebrates the wide and diverse experiences of people from around the world of all backgrounds and all races It disrupts the all too often white dominated required reading collections that have become the accepted norm and highlights powerful voices and cultural perspectives that demand a place on our shelves From literary giants such as Toni Morrison and Chinua Achebe to less well known but equally vital writers such as Caribbean novelist Earl Lovelace or Indigenous Australian author Tony Birch the novels recommended here are in turn haunting and lyrical innovative and inspiring edgy and poignant The power of great fiction is that readers have the opportunity to discover new worlds and encounter other beliefs and opinions This is the Canon offers a rich and multifaceted perspective on our past present and future which deserves to be read by all bibliophiles whether they are book club members or solitary readers self educators or teachers

Caught in the Middle Pyong Gap Min, 1996-11-30 In this unflinching exploration of one of the most politically charged topics of our time Pyong Gap Min investigates the racial dynamics that exist between Korean merchants the African American community and white society in general Focusing on hostility toward Korean merchants in New York and Los Angeles Min explains how the middleman economic role Koreans often occupy between low income minority customers on the one hand and large corporate suppliers on the other leads to conflicts with other groups Further Min shows how ethnic conflicts strengthen ties within Korean communities as Koreans organize to protect themselves and their businesses Min scrutinizes the targeting of Korean businesses during the 1992 Los Angeles riots and the 1990 African American boycotts of Korean stores in Brooklyn He explores Korean merchants relationships with each other as well as with Latin American employees Jewish suppliers and landlords and government agencies In each case his nuanced analysis reveals how Korean communities respond to general scapegoating through collective action political mobilization and other strategies Fluent in Korean Min draws from previously unutilized sources including Korean American newspapers and in depth interviews with immigrants His findings belie the media's sensationalistic coverage of African American Korean conflicts Instead *Caught in the Middle* yields a sophisticated and clear sighted understanding of the lives and challenges of immigrant merchants in America

Library, 1878. *The Nation*, 1898. *The Legacy of Alexander Luria: Neuropsychology as a Humane Science* Bella Kotik-Friedgut, 2025-05-22 This book invites you into the remarkable life and enduring legacy of Alexander Romanovich Luria whose groundbreaking contributions to understanding of the human mind continue to reverberate through modern neuroscience and clinical practice. Drawing from previously unknown personal diaries, intimate family archives and firsthand accounts from those who knew him best, this book depicts the man behind the science. Born in revolutionary Russia and navigating the tumultuous political landscape of the Soviet era, Luria emerged as a brilliant mind whose work transcended borders and ideologies. It is not merely a biography; it is an invitation to discover how one exceptional scientist's blend of brilliant observation, methodological innovation and profound empathy created a legacy that continues to transform how we understand and treat neurological conditions today. The book highlights Luria's revolutionary contributions to neuropsychology, his unique 'romantic science' approach and the personal insights offered through previously unpublished materials. What made Luria truly exceptional was his refusal to reduce patients to clinical cases. Instead, he pioneered what he called 'romantic science'—an approach that honored the whole person behind the neurological condition. This small book gives the reader in-depth analysis of two of Luria's celebrated case studies: *The Mind of a Mnemonist* and *The Man with a Shattered World*, including the afterlife of these books showing that decades later, Luria's work remains essential reading for anyone seeking to understand the complex relationship between brain, mind and human experience. Delving into personal accounts from Luria's students and collaborators highlights his pivotal role in shaping the global neuropsychology community. His visionary approach to education established him as a mentor who profoundly influenced generations, leaving an enduring legacy through his systemic dynamic method. His influence continues to resonate today as his students make his ideas accessible to a new generation of scientists through webinars, conferences, books and journal publications including the *Lurian Journal*. *Continent*, 1913. *Pathfinders in International Psychology* Grant J.
