(Trey) Hamilton, 2018-11-14 This textbook imparts a firm understanding of the behavior of prestressed concrete and how it relates to design based on the 2014 ACI Building Code It presents the fundamental behavior of prestressed concrete and then adapts this to the design of structures The book focuses on prestressed concrete members including slabs beams and axially loaded members and provides computational examples to support current design practice along with practical information related to details and construction with prestressed concrete It illustrates concepts and calculations with Mathcad and EXCEL worksheets Written with both lucid instructional presentation as well as comprehensive rigorous detail the book is ideal for both students in graduate level courses as well as practicing engineers

*User's Guide*, 1990 *Plastic Analysis and Design of Steel Structures* M. Bill Wong, 2011-08-30 The plastic analysis method has been used extensively by engineers for designing steel structures Simpler structures can be analyzed using the basic virtual work formulation but more complex frames are evaluated with specialist computer software This new book sets out a method for carrying out plastic analysis of complex structures without the need for specialist tools The book provides an introduction to the use of linear programming techniques for plastic analysis This powerful and advanced method for plastic analysis is important in an automated computational environment in particular for non linear structural analysis A

detailed comparison between the design codes for the United States and Australia and the emerging European Eurocodes enables practising engineers to understand the issues involved in plastic design procedures and the limitations imposed by this design method Covers latest research in plastic analysis and analytical tools Introduces new successive approximation method for calculating collapse loads Programming guide for using spreadsheet tools for plastic analysis     Reference Book on Computer Aided Design Lab Man M.
