*The Late Age of Print* Ted Striphas,2009-04-08 Ted Striphas argues that although the production and propagation of books have undoubtedly entered a new phase printed works are still very much a part of our everyday lives With examples from trade journals news media films advertisements and a host of other commercial and scholarly materials Striphas tells a story of modern publishing that proves even in a rapidly digitizing world books are anything but dead From the rise of retail superstores to Oprah's phenomenal reach Striphas tracks the methods through which the book industry has adapted or has failed to adapt to rapid changes in twentieth century print culture Barnes Noble Borders and Amazon.com have established new routes of traffic in and around books and pop sensations like Harry Potter and the Oprah Book Club have inspired the kind of brand loyalty that could only make advertisers swoon At the same time advances in digital technology have presented the book industry with extraordinary threats and unique opportunities Striphas's provocative analysis offers a counternarrative to those who either triumphantly declare the end of printed books or deeply mourn their passing With wit and brilliant insight he isolates the invisible processes through which books have come to mediate our social interactions and influence our habits of consumption integrating themselves into our routines and intellects like never before **Tabloid**

exposures of the more personal details of the lives of public figures Many commentators have seen stories like this and TV shows like Jerry Springer s as evidence of a decline in the standards of the mass media This increasing interest in private lives and the falling off of coverage of serious news is often described as tabloidization The essays in this book are the first serious scholarly studies of what is going on and what its implications are Reality it turns out is much more complex than some of the laments suggest As the contributors show this is not just a U S problem but is repeated in country after country and it is not certain that the media anywhere are getting more tabloid What is more there is no consensus about whether tabloidization is just dumbing down or whether it is a necessary tactic for the mass media to engage with new audiences who do not have the news habit Tabloid Tales will be of interest to students and scholars in journalism mass communication political science and cultural and media studies

How did each of them affect or change society? What were the issues they liked to talk about and what reaction did they get from listeners and from critics? How were talk hosts able to persuade people to vote for particular candidates or support certain policies? Which hosts were considered controversial and why?
