**The Five-Factor Model of Personality Across Cultures** Robert R. McCrae, Juri Allik, 2012-12-06 ROBERT R MCCRAE it is simply personality research conducted in different countries The implicit assumption behind this practice is that personality processes are universal and where they are studied is thus of no consequence An insensitivity to cultural context once imputed mostly to Americans now appears to characterize the field worldwide Fortunately recent years have also seen a rise of interest in studies of personality and culture Church 2001 Church Lee McCauley McCrae 2000 What do these new studies show Are personality processes indeed universal or are there significant variations across cultures that necessitate a more nuanced approach to research There is as yet no definitive answer to that question In some respects human personality does seem to transcend the boundaries of language and culture in other respects it is profoundly influenced by social and historical forces Sorting these issues out must be a priority for our field if we are to understand the current personality literature

Approaching theories of language through themes such as gender race creativity and cognition this text introduces the conceptual frameworks which underpin the study of language      African Language Structures Wm. E. Welmers,2024-06-04

Wm E Welmers surveys a wide range of structural characteristics both phonological and grammatical of the languages of sub Saharan Africa Drawing on thirty years of experience in the analysis and teaching of African languages and on work done on some seventy spoken languages Welmers has organized the volume by linguistic topic Thus there are extensive discussions of tonal systems in languages from all over sub Saharan Africa of noun classes and concord in the Bantu and other Niger Kordofanian languages and of the varieties of verbal constructions found in representative languages African Language Structures emphasizes the organization of language data rather than the technicalities of theoretical linguistics The material is presented in such a way that students working on the analysis of other languages can be guided in their procedures Welmers suggests not only what types of structures may be expected but also how they may be discovered and described This work is unique in the depth of its linguistic insight over the entire spectrum of language structure and in the breadth of its language coverage This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973      Vowel Epenthesis in Loanword Adaptation Christian Uffmann,2012-02-14

While it is commonly assumed that languages epenthesize context free default vowels this book shows that in loanword adaptation several strategies are found which interact intricately Large loanword corpora in Shona Sranan Samoan and Kinyarwanda are analyzed statistically and the patterns are modeled in a version of Optimality Theory which introduces constraints on autosegmental representations The focus of this book is on English loans in Shona providing an in depth empirical and formal analysis of epenthesis in this language The analysis of additional languages allows for solid typological generalizations In addition a diachronic study of epenthesis in Sranan provides insight into how insertion patterns develop historically In all languages analyzed default epenthesis exists alongside vowel harmony and spreading from adjacent consonants While different languages prefer different strategies these strategies are subject to the same set of constraints however In spreading feature markedness plays an important role alongside sonority We suggest universal markedness scales which combine with constraints on autosegmental configurations to model the patterns found in individual languages and at the same time to constrain the range of possible crosslinguistic variation      **Proclaiming the Scandal of the Cross** Mark D. Baker,2006-12-01

Because many modern Christians can offer a reasonable explanation of the meaning of Jesus death on the cross they find it hard to understand the confusion displayed by the disciples after the events

in the last pages of the Gospels But if Paul were alive today he would find it inexplicable that we modern believers are not scandalized by the cross Proclaiming the Scandal of the Cross introduces pastors church leaders students and lay readers to the need for contextualized atonement theology offering creative examples of how the cross can be proclaimed today in culturally relevant and transformative ways It makes helpful suggestions on how this vision for a culturally relevant message might be developed The impressive list of contributors includes writings from C S Lewis Rowan Williams Frederica Mathewes Green Brian McLaren and many more who are actively working out just how to make this life transforming proclamation

Ubuntu, Migration and Ministry Elina Hankela, 2014-05-28 Ubuntu Migration and Ministry invites the reader to rethink ubuntu Nguni humanness humanity as a moral notion in the context of local communities The socio moral patterns that emerge at the crossroads between ethnography and social ethics offer a fresh perspective to what it means to be human in contemporary Johannesburg The Central Methodist Mission is known for sheltering thousands of migrants and homeless people in the inner city Based on ethnographic fieldwork primarily conducted in 2009 Elina Hankela unpacks the church leader s liberationist vision of humanity and analyses the tension between the congregation and the migrants linked to the refugee ministry While relational virtues mark the community s moral code various regulating rules and structures shape the actual relationships at the church Here ubuntu challenges and is challenged Winner of the 2014 Donner Institute Prize for Outstanding Research into Religion African Womanhood and the Feminist Agenda Musungafi, Maxwell Constantine Chando, Hungwe, Chipu, 2024-01-16 Within academic circles there is a longstanding issue concerning the portrayal and understanding of African womanhood Frequently these narratives are crafted by outsiders predominantly Western scholars often distorting the lived experiences and unique perspectives of African women This has led to a skewed and sometimes negative perception of African women reinforcing stereotypes and sidelining their voices in critical discussions Moreover this misrepresentation has real world consequences as it impacts social justice initiatives and development projects that rely on misguided narratives rather than the authentic voices of African women African Womanhood and the Feminist Agenda emerges as an essential solution to the misrepresentation of African women This comprehensive and meticulously researched book offers an alternative narrative one that is rooted in African perspectives and experiences It addresses the historical cultural and political dimensions of African womanhood providing a rich and nuanced understanding of this multifaceted topic **Counseling and Pastoral Care in African and Other Cross-Cultural Contexts** Tapiwa N.

Mucherera, 2017-11-03 The coming of Colonization and Christianity to Africa and other indigenous cross cultural contexts was a mixed bag of pros and cons The impact of the advent of the two has had a lasting effect being felt even today It created issues of bi culturalism and bi religiousness in personal and religious identities that counselors and the church need to address when working with people from these contexts There is the existence of deep cultural trauma including psychological and spiritual scars needing healing for those living in most of these post colonial contexts The Western

counseling approaches and Christian rituals need contextualization A counselor or pastoral caregiver with an integrative consciousness is required to address the psychological and religious identity conflicts existing in African and other indigenous cross cultural contexts

**Gendered Spaces, Religion and Migration in Zimbabwe** Ezra Chitando,Sophia Chirongoma,Molly Manyonganise,2022-10-12 This book explores the intersections of gender religion and migration within the context of post independent Zimbabwe with a specific focus on how gender disparities impact economic development By demonstrating how these interconnections impact women s and girls lived realities the book addresses the need for gender equity gender inclusion and gender mainstreaming in both religious and societal institutions This book assesses the gender and migration

nexus in Zimbabwe and examines the impact of religious cultural ideologies on the status of women. In doing so it assesses the transition of Zimbabwean women across spaces and provides insights into the practical strategies that can be utilised to improve their status both at home and on the move. Furthermore, chapters show how space continues to be gendered in ways that perpetuate structural inequality to challenge the exclusion of women from key social processes. Contributing to ongoing scholarly debates on gender in Africa, this book will be of interest to academics and students of Gender Studies, Women's Studies, African Studies, Development Studies, as well as advocates of human rights and gender activists.

Global Perspectives on Football in Africa Susann Baller, Giorgio Miescher, Ciraj Rassool, 2013-10-31 Football in many ways is a visual endeavour. From the visual experience within the stadium itself to worldwide media representations from advertisements to football art and artefacts, football is much about seeing and being seen, about watching, making visual and being visualised. The FIFA World Cup 2010 in South Africa has turned into a perfect example of the visual dimensions of football. Stadiums have been built and marketed as tourist attractions; mass media and internet platforms are advertising South African cities and venues; logos and emblems are displayed and celebrated; exhibitions are organised in museums worldwide. This book explores the social, cultural and political role of football in Africa by focusing on the issue of its visibility and invisibility. The contributions consider the history and present of football in different parts of Africa. They examine historical and recent pictures and images of football and football players as well as places and spaces of their production and perception. They analyse the visual dimensions expressed in sports infrastructure, football media spaces and in expressive and material arts. This book thus contributes to the growing interest in football in Africa by exploring a new field of research into sports. This book was previously published as a special issue of *Soccer and Society*.

*Student Encyclopedia of African Literature* Douglas Killam, Alicia L. Kerfoot, 2007-12-30 African literature is a vast subject of growing output and interest. Written especially for students, this book selectively surveys the topic in a clear and accessible way. Included are roughly 600 alphabetically arranged entries on writers, genres and major works. Many entries cite works for further reading and the volume closes with a selected general bibliography. Africa is a land of contrasts and of diverse cultures and traditions. It is also a land of conflict and creativity. The literature of the continent draws upon a fascinating body of oral traditions and lore and also reflects the political turmoil of the modern world. With the increased interest in cultural diversity and the growing centrality of Africa in world politics, African literature is figuring more and more prominently in the curriculum. This book helps students learn about the African literary achievement. Written expressly for students, this book is far more accessible than other reference works on the subject. Included are nearly 600 alphabetically arranged entries on authors such as Chinua Achebe, Athol Fugard, Buchi Emecheta, Nadine Gordimer and Wole Soyinka, major works such as *Things Fall Apart* and *Petals of Blood*, and individual genres such as the novel, drama and poetry. Many entries cite works for further reading and the volume closes with a selected general bibliography.

*Divination* Patrick Curry, 2016-05-13 Divination is any ritual and its

associated tradition performed in order to ask a more than human intelligence for guidance A universal human practice it has received surprisingly little academic attention This interdisciplinary collection by leading scholars in the field is dedicated to fascinating new insights into divination and oracles arising from recent work in anthropology religious studies history and classical studies Central importance is given to the practical and theoretical perspectives of diviners as well as scholars of divination several contributors are both This book explores philosophical issues such as the nature of divinatory intelligence the relationship between divinatory and metaphorical truth the primacy of ontology over epistemology the importance of reflexivity in scholarly studies of divination and astrology as the principal Western form of divination The ethnographic and historical examples range from contemporary Nigeria urban Cuba Mayan Guatemala and the shamanic cultures of the circumpolar Arctic to classical Greece and ancient Judea
