KB-6524PS/PK/PW Insight Pro® Microwave Drawer® Oven

INSIGHT·PRO®

Innovative thinking led to the world's first Microwave Drawer® Oven, an appliance that has helped revolutionize kitchen design and microwave oven placement. Now Sharp introduces the next generation of this successful appliance – larger, sleeker and more accessible than ever. The new KB-6524P fits in the same space as other Sharp 24-inch models, yet its larger 1.2 cu. ft. interior is tall enough to hold a 20 oz. cup from your favorite take-out coffee store. Plus, there are two convenient ways to open or close the drawer – either pull or push the Easy Open handle or simply touch the Auto-Touch™ control panel.

With more convenience features, quieter operation and a more integrated design, the KB-6524P really is the best solution yet for where to place the microwave.

New 24-inch Design

The new KB-6524P joins Sharp's line-up of Microwave Drawer appliances. The design is new, inside and out. The cavity is larger with 1.2 cu. ft. capacity, tall enough to hold your favorite 7-in. high mug or a 20 oz. cup from your neighborhood take-out coffee store. The new open handle and concealed louvers give this model a contemporary, quality look and feel. With all these changes, outside dimensions remain the same, making kitchen planning and installation easier.

Easier Accessibility

Just pull or push the Microwave Drawer handle and Sharp's exclusive Easy Open system activates a motor to open or close the drawer automatically. For even easier access, the control panel also features Open and Close buttons for one-finger operation. Smaller, lower drawer slides make

the cavity more accessible so it's easier to clean the top and back walls. And best of all, there's no need to remove the dish from the oven to check, stir, or turn the food.

Increased Functionality

Sharp continually looks at where consumers place their microwave ovens and how they use them. Based on research with Microwave Drawer owners, we've expanded Short Cut options to include "Warm" for heating syrup for pancakes and dessert sauce for ice cream. A new Beverage Center warms coffee or heats water for hot tea or instant coffee or soup. Sensor Cook® settings and defrost options have been expanded.
