A Fluid Sense of Self Silvia Schultersandl, Sebnem Toplu, 2010 In this era of increasing global mobility identities are too complex to be captured by concepts that rely on national borders for reference Such identities are not unified or stable but are fluid entities which constantly push at the boundaries of the nation state thereby re defining themselves and the nation state simultaneously Contemporary literature pays specific attention to internal and external notions of belonging Politics of Motion and definitions of self resulting from interpersonal relationships Politics of Longing This collection looks at texts by authors who are British American or Canadian but for whom a self definition according national parameters is insufficient

Zadie Smith Tracey Walters, 2013-08-01 Zadie Smith made a huge splash in 1997 when as a college student she received one of the largest advances in British history for her novel White Teeth Since then Smith has published four major novels a volume of essays and many short stories She has become a college professor an award winner and an influential critic of both literature and the current political scene Readers of Zadie Smith will learn about how insecure and outside of society she felt as a child and young woman and how that very sense of being an outsider transformed her into the writer of clarity she is today

Reading Zadie Smith Philip Tew, 2013-12-05 Since the publication of White Teeth in 2000 Zadie Smith has become one of the most popular contemporary writers and also one of the mostly widely studied Taking criticism of Smith's work beyond its traditional focus on postcolonialism and multicultural identity Reading Zadie Smith brings together leading international scholars to open up new directions in criticism of Smith's work Covering such key topics as posthumanism hysterical realism religion identity and ethics this book brings together a full range of current critical perspectives to explore not only Smith's novels but also her short stories her criticism and her non fiction writing

Brahms Studies David Lee Brodbeck, 1998-12-01 The eight essays in Brahms Studies 2 provide a rich sampling of contemporary Brahms research In his examination of editions of Brahms's music George Bozarth questions the popular notion that most of the composer's music already exists in reliable critical editions Daniel Beller McKenna reconsiders the younger Brahms's involvement in musical politics at midcentury The cantata Rinaldo is the centerpiece of Carol Hess's consideration of Brahms's music as autobiographical statement Heather Platt's exploration of the twentieth century reception of Brahms's Lieder reveals that advocates of Hugo Wolf's aesthetics have shaped the discourse concerning the composer's songs and calls for an approach more clearly based on Brahms's aesthetics In his examination of the rise of the great symphony as a critical category that carried with it a nearly impossible standard to meet Walter Frisch provides a rich context in which to understand Brahms's well known early struggle with the genre Kenneth Hull suggests that Brahms used ironic allusions to Bach and Beethoven in the tragic Fourth Symphony in order to subvert the enduring assumption that a minor key symphony will end triumphantly in

the major mode Peter H Smith examines Brahms's late style by concentrating on Neapolitan tonal relations in the Clarinet Sonata in F Minor Finally David Brodbeck delineates the complex evolution of Brahms's reception of Mendelssohn's music

Contemporary Authors: 1945 to the Present Britannica Educational Publishing, 2013-06-01 Contemporary literature encompasses so many genres literary forms and themes that it would seem almost impossible to identify a unifying thread between them Yet in the tradition established by literary heavyweights who came before modern writers of all stripes and backgrounds have continued to entertain and to confront the social cultural and psychological realities of the times including everything from racial identity to war to technology with their own flair and insight The diversity of authors profiled herein from Toni Morrison to Sylvia Plath to Stephen King to David Foster Wallace attests to the scope and complexity of modern society *Zadie Smith* Philip Tew, 2009-11-23 An introduction to the work of Zadie Smith placing her fiction in a clear historical and theoretical context and exploring her work in relation to contemporaneity and postcolonialism Including a timeline of key dates this guide offers an accessible reading of Smith's work and an overview of its critical reception

Fictions of Proximity Tim Person, 2023-11-02 Fictions of Proximity Skepticism Romanticism and the Wallace Nexus tells the story of a nexus of contemporary novelists around David Foster Wallace who took up the legacy of logical positivism and reworked it between the 1980s and the 2000s in a way that has affinities with romanticism The book shows how the writers of this Wallace nexus use fiction's complexities to challenge the idea that in human interactions only complete fusion and transparency may count as instances of knowing In place of this positivistic ideal of absorption the book offers the freshly defined concept of proximity a closeness with separateness It reads key novels of contemporary Anglo American literature as fictions of proximity i e as texts that dramatize problematize and enact the movement into this position of proximity To tell this story the book draws on unpublished archival materials and understudied connections advancing new interpretations of four novelists David Foster Wallace David Markson Bret Easton Ellis and Zadie Smith Fictions of Proximity provides new readings of these writers both of their canonical texts and of lesser known works and situates them with respect to prominent figures in contemporary post positivist philosophy

English Literature from the 19th Century Through Today J. E. Luebering Manager and Senior Editor, Literature,2010-08-15 Explores the works writers and movements that shaped the British literary canon from the nineteenth century through the beginning of the twenty-first century *Anglophone Jewish Literature* Axel Stähler,2007-09-14 Anglophone Jewish literature is not traditionally numbered among the new literatures in English Rather Jewish literary production in English has conventionally been classified as hyphenated and has therefore not yet been subjected as such to the scrutiny of scholars of literary or cultural history The collection of essays addresses this lack and initiates the scholarly exploration of transnational and transcultural Anglophone Jewish literature as one of the New English Literatures Without attempting to impose what would seem to be a misguided conceptual unity on the many-faceted field of Anglophone Jewish literature the book is based on a plurality of theoretical frameworks Alert to the productive friction between these discourses which it aims to elicit it confronts Jewish literary studies with postcolonial studies cultural studies and other contemporary theoretical frameworks Featuring contributions from among the best-known scholars in the fields of British and American Jewish literature including Bryan Cheyette and Emily Miller Budick this collection transcends borders of both nations and academic disciplines and takes into account cultural and historical affinities and differences of the Anglophone diaspora which have contributed to the formation and development of the English language segment of Jewish literature **The Fetish** Massimo Fusillo,2017-09-21 Object fetishism is becoming a more and more pervasive phenomenon Focusing on literature and the visual arts including cinema this book suggests a parallelism between fetishism and artistic creativity based on a poetics of detail which has been brilliantly exemplified by Flaubert's style After exploring canonical accounts of fetishism Marx Freud Benjamin by combining a historicist approach with theoretical speculation Massimo Fusillo identifies a few interpretive patterns of object fetishism such as seduction from Apollonius of Rhodes to Max Oppels memory activation from Goethe to Louise Bourgeois and Pamuk and the topos of the animation of the inanimate Whereas all these patterns are characterized by a projection of emotional values onto objects modernism highlights a more latent component of object fetishism the fascination with the alterity of matter variously inflected by Proust Woolf Joyce Barnes and Mann The last

turning point in Fusillo's analysis is postmodernism and its obsession with mass media icons from DeLillo's maximalist frescos and Zadie Smith's reflections on autographs to Palahniuk's porn objects from pop art to commodity sculpture
