*Culture, philosophies and reforms in public administration for the globalizing world* Edwin O.C. Ijeoma, Ogochukwu I. Nzewi, 2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment. The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives, the so-called grand debates such as New Public Management and specifically the role of technology. It also reflects on the so-called middle range discourses concerning organisational level issues in government, e.g. leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery. The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way. Through its multidisciplinary lens, the book opens up a new vision for the future of public administration in the South African context and on the African continent, not neglecting the current local, regional and global environment. Until recently, globalisation was considered an entrenched world order, but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history. This includes developments such as the successful referendum in Britain to exit the European Union, highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order. These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole. Pointedly, it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge. On the policy front, there are perennial challenges of land reform, service delivery and poverty, while on the governance front, corruption has metastasised with a growing culture of impunity and lack of accountability in leadership. In the midst of growing corruption and more than 20 years into democracy, South Africa's income inequality remains one of the highest in the world. This setting constitutes the context of the research outcome published in this scholarly work.

Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth. *Campus Student Activism, Politics, and Citizenship in the 21st Century* examines the dynamics of campus politics through student activism and citizenship perspectives, academia, public, private and civil society sectors.  Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post  
 apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led  
 to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of  
 views political and economic We use the term here within context but essentially define it as a commitment to open views the  
 willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved  
 towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist  
 democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of  
 majority rule the view towards the future is much less promising than it was in 1994      **Higher Education Pathways** Paul  
 Ashwin, M. Case, 2018-12-13 In what ways does access to undergraduate education have a transformative impact on people  
 and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education  
 to the public good including inclusive economic development These questions have particular resonance in the South African  
 higher education context which is attempting to tackle the challenges of widening access and improving completion rates in  
 in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core  
 legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as  
 central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent  
 positive impact on societal institutions and the development of a range of capabilities that have public as well as private  
 benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing  
 issues      **Wireless Communication** Prashant Ranjan, Ram Shringar Rao, Krishna Kumar, Pankaj Sharma, 2022-08-10 This

issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation. The relevant black empowerment experiences of countries such as the United States are also discussed. The authors identify policy and programmatic interventions to forge the non-racial future that the constitution enjoins South Africans to build.

*Parcel of Death* Gaongalelwe Tiro, 2019-08-01

*Parcel of Death* recounts the little-told life story of Onkgopotse Abram Tiro, the first South African freedom fighter, the apartheid regime pursued beyond the country's borders to assassinate with a parcel bomb. On 29 April 1972, Tiro made one of the most consequential revolutionary addresses in South African history. Dubbed the Turfloop Testimony, Tiro's anti-apartheid speech saw him and many of his fellow student activists expelled, igniting a series of strikes in tertiary institutions across the country. By the time he went into exile in Botswana, Tiro was president of the Southern African Student Movement (SASM), permanent organiser of the South African Student Organisation (SASO) and a leading Black Consciousness proponent, hailed by many as the godfather of the June 1976 uprisings. *Parcel of Death* uses extensive and exclusive interviews to highlight significant influences and periods in Tiro's life, including the lessons learned from his rural upbringing in Dinokana, Zeerust, the time he spent working on a manganese mine, his role as a teacher, and the impact of his faith in shaping his outlook. It is a compelling portrait of Tiro's story and its lasting significance in South Africa's history.
