Limpopo's Legacy Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba *University on the Border* Lis Lange, Vasu Reddy, Siseko H. Kumalo, 2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university Secondary Cities and Development Lochner Marais, Etienne Nel, Ronnie Donaldson, 2016-05-20 The role secondary cities play in the global space economy and national urban hierarchies is increasingly receiving attention from scholars and international agencies most notably the Cities Alliance Secondary Cities and Development considers the role of secondary cities through the lens of South Africa a middle income country with characteristics of both the developed and developing worlds This book brings together a broad overview of international literature on secondary cities in South Africa and mirrors them against global experience Chapters emphasize the importance of secondary cities as regional services areas their potential roles in rural development the vulnerabilities to which they are prone and their significant potential By means of review six South African case studies and an assessment of contemporary policy approaches towards these cities this unique volume provides insight into a spectrum of globally significant challenges This book would be of interest to academics and policy makers working in urban studies or regional development *Thabo Mbeki* Mark Gevisser, 2022-05-06 Hailed in the Times Literary Supplement as probably the finest piece of non fiction to come out of South Africa since the end of apartheid The Dream Deferred is back in print and updated with a brilliant new epilogue The prosperous Mbeki clan lost everything to apartheid Yet the family saw its favourite son Thabo rise to become president of South Africa in 1999 A decade later Mbeki was ousted by his own party and his legacy is bitterly contested particularly over his handling of the AIDS epidemic and the crisis in Zimbabwe Through the story of the Mbeki family award winning journalist Mark Gevisser tells the gripping tale of the last tumultuous century of South Africa life following the family's path to make sense of the liberation struggle and the future that South Africa has inherited At the centre of the story is Mbeki a visionary yet tragic figure who led South Africa to freedom but was not able to overcome the difficulties of his own dislocated life It is 15 years since Mbeki was unceremoniously dumped by the ANC giving rise to the wasted years under Jacob Zuma

With the benefit of hindsight and as Mbeki reaches the age of 80 Gevisser examines the legacy of the man who succeeded Mandela essential reading for anyone intrigued by South Africa's complex philosopher king *The Economist* *The Origin and Growth of Geography as a discipline at South Africa Universities* Gustav Visser, 2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa's geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future
