Border Jumping and Migration Control in Southern Africa Francis Musoni, 2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe the border between these Southern African countries has become one of the busiest inland ports of entry in the world As border crossers wait for clearance crime violence and illegal entries have become rampant Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this including searches for better paying jobs and access to food and clothing at affordable prices Musoni sets these actions into a framework of illegality He considers how countries have failed to secure their borders why passports are denied to travelers and how border jumping has become a phenomenon with a long history especially in Africa Musoni emphasizes cross border travelers active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk

Oral Literary Performance in Africa Nduka Otiono, Chiji Akoma, 2021-05-31 This book delivers

an admirably comprehensive and rigorous analysis of African oral literatures and performance. Gathering insights from distinguished scholars in the field, the book provides a range of contemporary interdisciplinary perspectives in the study of oral literature and its transformations in everyday life, fiction, poetry, popular culture, and postcolonial politics. Topics discussed include folklore and folklife, oral performance and masculinities, intermediated orality, modern transformations, and globalisation, orality and mass media, spoken word and imaginative writing. The book also addresses research methodologies and the thematic and theoretical trajectories of scholars of African oral literatures, looking back to the trailblazing legacies of Ruth Finnegan, Harold Scheub, and Isidore Okpewho. Ambitious in scope and incisive in its analysis, this book will be of interest to students and scholars of African literatures and oral performance, as well as to general readers interested in the dynamics of cultural production.

Simple Forms Douglas Gray, 2015. *Simple Forms* is a study of popular or folk literature in the medieval period. Focusing both on the vast body of oral literature that lies behind the written texts which have survived from the medieval period and on the popular literature provided by literate authors for audiences of hearers or readers with varying degrees of literacy, Douglas Gray leads new readers to a productively complicated understanding of the relationship between medieval popular culture and the culture of the learned. He argues that medieval society was stratified in what seems to us a rigid way, but that culturally it was more flexible. Literary topics, themes, and forms moved; there was much borrowing and a constant interaction. Popular tales, motifs, and ideas passed into learned or courtly works; learned forms and attitudes made their way into popular culture. All in all, this seems to have been a fruitful symbiosis. The book's twelve chapters are principally organised by genre, covering epics, ballads, popular romances, folktales, the German *sage*, legends, animal tales, and fables, proverbs, riddles, satires, songs, and drama.

Psychosocial Pathways Towards Reinventing the South African University Sabrina Liccardo, 2020-11-02. This book proposes a conceptual, empirical framework for exploring forms of continuity and change along psychosocial pathways in South African universities. It illustrates how the psychosocial pathways are grounded in the symbolic narratives and knowledges of young scientists, engineers, and architects, all interlocutors in the research from which this book is based. Alala Mamorata, Welile Odirile Kaiya, Amirah Takalani, Nosakhele Naila Ambani, Khanyisile Itumeleng, Ethwasa, and Kgnaya provide collective standpoints in the multiplicities within and between the lived lives and told stories of young Black South African women in Science, Technology, Engineering, and Mathematics (STEM) fields. In doing so, this compelling work advances possibilities for demythologising scientific endeavour as a white male achievement and shifting knowledge communities across gendered, racialised, class, and national divides. This book presents an innovative narrative methodology utilising the myth of the Minotaur to examine the state of the university at the heart of the hierarchical labyrinth in post-apartheid South Africa. Throughout the work, the author wrestles with and self-reflexively highlights her own positionality as a white middle-class South African woman to examine how this affects the production of this research in ways which serve to preserve the colonial knowledge system. With the rise of the Rhodes Must Fall and Fees

Must Fall student movement in South Africa demanding for the fall of institutionalised racial hierarchies the author uses the cover image of narrative formations in the spirit of exploration to think with and through undulating networked forms that could possibly forge new psychosocial pathways towards decolonising and reinventing South African universities This work offers a unique conceptual and methodological resource for students and scholars of psychosocial and narrative theory as well as those who are concerned about the politics of higher education both in South Africa and in other contexts around the world

Life, Times and Work of William Gillies, 1898-1973 Andrew McPherson, 2024-11-30 For seventy years William Gillies has been seen as a placid painter of landscape and decorative still life Andrew McPherson explodes this view to reveal a modernist whose response to the instabilities and violence of modernity touched universals of human experience Gillies' idiom was shaped by institutions for artistic production unique to Scotland But it was the politics of Scotland's connections to the rest of the British Isles that produced his mythic and misleading reputation New paintings and new meanings are uncovered placing the micro effects of modernity on mental health family and community in the wider contexts of war nationalism and public patronage McPherson also shows how this changing world led Gillies towards new applications of modernist expression Lavishly illustrated and referencing almost one thousand works this major reappraisal is an indispensable source on the cultural politics of a four nation state and the reception of modernism in Britain
