dispossessed by administrators heedless of local management practices many former residents continue to maintain a close connection with the forest not only to sustain their livelihoods but also to maintain their intimate links with ancestral lands where their stories and memories are materially inscribed and powerfully invoked Intimate connections to the forest are revealed to be as political as the use of its resources culminating in local claims for redress of historical dispossessions sustain their livelihoods but also to maintain their intimate links with ancestral lands where their stories and memories are materially inscribed and powerfully invoked Intimate connections to the forest are revealed to be as political as the use of its resources culminating in local claims for redress of historical dispossessions sustain their livelihoods but also to maintain their intimate links with ancestral lands where their stories and memories are materially inscribed and powerfully invoked Intimate connections to the forest are revealed to be as political as the use of its resources culminating in local claims for redress of historical dispossessions sustain their livelihoods but also to maintain their intimate links with ancestral lands where their stories and memories are materially inscribed and powerfully invoked Intimate connections to the forest are revealed to be as political as the use of its resources culminating in local claims for redress of historical dispossessions
