Handbook of Integrative Developmental Science
Michael F. Mascolo, Thomas R. Bidell, 2020-03-20 Although integrative conceptions of development have been gaining increasing interest there have been few attempts to bring together the various threads of this emerging trend The Handbook of Integrative Developmental Science seeks ways to bring together classic and contemporary theory and research in developmental psychology with an eye toward building increasingly integrated theoretical and empirical frameworks It does so in the form of a festschrift for Kurt Fischer whose life and work have both inspired and exemplified integrative approaches to development Building upon and inspired by the comprehensive scope of Fischer's Dynamic Skill Theory this book examines what an integrated theory of psychological development might look like Bringing together the work of prominent integrative thinkers the volume begins with an examination of philosophical presuppositions of integrative approaches to development It

then shows how Dynamic Skill Theory provides an example of an integrative model of development After examining the question of the nature of integrative developmental methodology the volume examines the nature of developmental change processes as well as pathways and processes in the development of psychological structures both within and between psychological domains The team of expert contributors cover a range of psychological domains including the macro and micro development of thought feeling motivation self intersubjectivity social relations personality and other integrative processes It ends with a set of prescriptions for the further elaboration of integrative developmental theory and a tribute to Kurt Fischer and his influence on developmental psychology This book will be essential reading for graduate students and researchers of developmental psychology and human development specifically developmental science

Child Abuse

and Neglect in Uganda David Kaawa-Mafigiri, Eddy Joshua Walakira, 2017-01-20 This book provides a unique perspective on addressing issues of various forms of violence against children from scholars within their own country. Bringing together cross disciplinary expertise, this volume addresses a vast range of topics related to child abuse and neglect in Uganda. Exploring areas from the protection of street children to cultural proverbs related to child maltreatment, this volume examines issues both specific to the Ugandan contexts as well as broadly experienced in child maltreatment work in non Euro American countries. This book surveys the breadth of the child protection field, covering issues of children's universal rights, challenges of protection, and ethical quandaries in researching and addressing maltreatment. **Developmental Trajectories, Diagnosis, and Interventions for Autism** Michael Voltaire, 2025-08-20 This book introduces a developmental psychopathology approach to exploring the concept of autism in terms of three broad domains of development: physical, cognitive, and psychosocial, that are inextricably linked. Developmental psychopathology focuses on the interplay between normal and abnormal development. The juxtaposition of typical and atypical developmental patterns can better inform clinicians and parents of possible signs of achievement milestones that are missing or falling behind. This book consists of twelve chapters grouped under four parts, with each chapter's core content based on the most recent research findings and ending with the author's reflections on various parts of the chapter and a summary of the main points discussed. A final chapter addresses topics of utmost importance rarely discussed in books on autism. Appropriate for a wide range of professionals who work with clients who have autism, this book is a unique resource with approaches often overlooked in most books on autism.
