(Hornbill) (Chapter 3) (Poem – 2) (The Voice of the Rain) (Class – XI)

II.

Notice the following sentence patterns.

Question 1:

And who art thou? *said I* to the soft-falling shower.

Answer 1:

I enquired the soft falling rain about its identity.

Question 2:

I am the Poem of Earth, *said the voice of the rain*.

Answer 2:

In the above line, the rain responded with its introduction as "Poem of Earth".

Question 3:

Eternal I rise.

Answer 3:

The voice of the rain explained its upward movement towards endless sky.

Question 4:

For song...*duly with love returns.*

Answer 4:

The poet says that a song originates from the heart of the poet, just like a rain water cycle, which travels to reach others and after fulfilling its purpose and then returns to the poet with due love.

III.

Look for some more poems on the rain and see how this one is different from them.

Answer:

The poem – "Rain" written by W. H. Davies describes symbolically the natural occurrence of rain. Rain falls on top of the dense foliage. These thick leaves drink the rainwater first, then pass it to the lower thin leaves, drop by drop. The top thick leaves represent wealthy people who receive the majority of the blessings but give very little alms to the poor. However, the poet is still hopeful that one day there will be equality in the society just like sunshine which spreads all over the world without difference and equally. This sunshine is alike for the rich green and poor leaves.

The central idea of the poem "The Voice of the Rain" by Nathalie Trouveroy is that both rain and poetry hold a significant position on the earth. The rain originates from the bottom of the seas in the form of water vapors. It rises to the sky and from there it falls down on the earth and helps the life to exist and flourish.
