2 Corinthians: An Introduction and Study Guide Jay Twomey, 2017-01-12 This guide considers the historical contexts the literary forms the social and rhetorical backgrounds the politics the theologies and the reception of 2 Corinthians Each chapter surveys recent scholarly approaches to the text focussing especially on critical perspectives that mesh with our contemporary concerns about gender identity race and class 2 Corinthians becomes in the process less the work of a single 1st century writer than a

set of fraught even fractured negotiations between competing interests and impulses conducted in Paul's voice. The last chapter brings the letter into conversation with Nathaniel Hawthorne's short story *The Minister's Black Veil* in order to shift the terms of the critical discussion from what Paul meant to how Paul means in later cultural moments. Twomey introduces students to the way 2 Corinthians offers a fascinating but fragmentary glimpse into Paul's continuing ties with the Corinthian community. At the same time Twomey shows how the letter is the site of many new critical challenges to traditional readings of Paul and early Christianity. In contrast to 1 Corinthians this 2 Corinthians largely eschews the debates and discussions the interests and concerns of Paul's correspondents. Instead we find Paul engaged in a multi-pronged defence of his ministry in and beyond Corinth. Over the course of thirteen chapters he runs the gamut of the emotions rhetorically from tears to joy to biting anger while struggling to keep his relationship with some say his control over the community intact.

Education Ann Katherine Schulte, 2008-11-01 In this book a teacher educator examines her practice as a way of learning
about teaching as well as challenging teacher education It is about how one teacher educator sought to transform the
perspectives of her student teachers in order to better prepare them to teach diverse populations of students while
challenging her own beliefs about how best to do that The author seeks integrity in her practice defined as her ability to
enact what she teaches preservice teachers to do In particular this book is a self study that contributes to understanding the
broader question How much can one affect and change the discourse within education when one also inhabits the
characteristics that are privileged by the institution The teacher education literature supports the need to study this type of
self reflection Other researchers have pointed out that the role of teacher educators cultural identities in reforming
education has been largely ignored in the literature This book offers a unique perspective on the analogous relationship
involved when a teacher educator teaches teachers how to examine the impact of their own identities on their teaching while
examining that herself **Change Leadership** Tony Wagner, Robert Kegan, Lisa Laskow Lahey, Richard W. Lemons, Jude

Garnier, Deborah Helsing, Annie Howell, Harriette Thurber Rasmussen, 2012-06-28 The Change Leadership Group at the
Harvard School of Education has through its work with educators developed a thoughtful approach to the transformation of
schools in the face of increasing demands for accountability This book brings the work of the Change Leadership Group to a
broader audience providing a framework to analyze the work of school change and exercises that guide educators through
the development of their practice as agents of change It exemplifies a new and powerful approach to leadership in schools
