Background and Introduction to Gravity

Gravity is a 2013 science fiction thriller film directed by Alfonso Cuarón, who also co-wrote, co-edited, and produced the film. It stars Sandra Bullock and George Clooney as American astronauts who attempt to return to Earth after the destruction of their Space Shuttle in orbit.

Cuarón wrote the screenplay with his son Jonás and attempted to develop the film at Universal Pictures. Later, the distribution rights were acquired by Warner Bros. Pictures. David Heyman, who previously worked with Cuarón on *Harry Potter and the Prisoner of Azkaban* (2004), produced the film with him. *Gravity* was produced entirely in the United Kingdom, where British visual effects company Framestore spent more than three years creating most of the film's visual effects, which involve over 80 of its 93 minutes.

Gravity opened the 70th Venice International Film Festival on August 28, 2013, and had its North American premiere three days later at the Telluride Film Festival. Upon its release, *Gravity* was met with widespread critical acclaim with high praise for its direction, visuals, cinematography, acting, and score though some critics and its dialogue. Considered one of the best films of 2013, it appeared on numerous critics' year-end lists, and was selected by the American Film Institute in their annual Movies of the Year list. The film became the eighth highest-grossing film of 2013 with a worldwide gross of over \$713 million, against a production budget of around \$100 million.

Gravity earned awards and nominations from numerous critics and guilds. At the 86th Academy Awards, *Gravity* received a leading 10 nominations, including Best Picture and Best Actress for Bullock, and won a leading seven awards, including Best Director, Best Original Score, Best Cinematography, and Best Visual Effects. The film was also awarded six BAFTA Awards, including Outstanding British Film and Best Director, the Golden Globe Award for Best Director, seven Critics' Choice Movie Awards, the 2013 Ray Bradbury Award, and the 2014 Hugo Award for Best Dramatic Presentation. Since its release, it has been cited as among the best films of the 2010s, the 21st century and of all time. (Poster and screenshots © Warner Bros., 2013)
