Boss, 1998-12 The Boss from Outer Space and Other Aliens at Work Patricia J. Addesso, 2007 Anyone who works in an office probably has to deal with at least some people who are so different they might as well be from another planet These differences can lead to conflict or if handled properly to a greater appreciation of others and a more productive workplace The secret to getting along lies in understanding the different personality traits people exhibit and how to relate to them The author identifies 11 traits that can make work relationships difficult which she compares to the planets plus the moon and the sun including Saturn with its distinctive rings symbolizes how comfortable one is being different and shows whether one is more of a conformist or experimenter Jupiter made up mostly of gases has a bubbly spirit and signifies one's level of optimism Earth as in down to Earth indicates whether someone is grounded or has one's head in the clouds Fun and easy to read yet packed with realistic strategies this very human guide will help anyone on the planet get along with even their most difficult coworker *Applied Ethics and HIV/AIDS in Africa* Cletus N. Chukwu, 2003 Resources for Teaching Middle School Science Smithsonian Institution, National Academy of Engineering, National Science Resources Center of the National Academy of Sciences, Institute of Medicine, 1998-04-30 With age appropriate inquiry centered curriculum materials and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them Resources for Teaching Middle School Science developed by the National Science Resources

Center NSRC is a valuable tool for identifying and selecting effective science curriculum materials that will engage students in grades 6 through 8. The volume describes more than 400 curriculum titles that are aligned with the National Science Education Standards. This completely new guide follows on the success of Resources for Teaching Elementary School Science, the first in the NSRC series of annotated guides to hands-on inquiry-centered curriculum materials and other resources for science teachers. The curriculum materials in the new guide are grouped in five chapters by scientific area: Physical Science, Life Science, Environmental Science, Earth and Space Science, and Multidisciplinary and Applied Science. They are also grouped by type: core materials, supplementary units, and science activity books. Each annotation of curriculum material includes a recommended grade level, a description of the activities involved, and of what students can be expected to learn; a list of accompanying materials; a reading level; and ordering information. The curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the guide. The criteria reflect and incorporate goals and principles of the National Science Education Standards. The annotations designate the specific content standards on which these curriculum pieces focus. In addition to the curriculum chapters, the guide contains six chapters of diverse resources that are directly relevant to middle school science. Among these is a chapter on educational software and multimedia programs; chapters on books about science and teaching; directories and guides to science trade books and periodicals for teachers and students; Another section features institutional resources. One chapter lists about 600 science centers, museums, and zoos where teachers can take middle school students for interactive science experiences. Another chapter describes nearly 140 professional associations and U.S. government agencies that offer resources and assistance. Authoritative, extensive, and thoroughly indexed, and the only guide of its kind, Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers, school administrators, teacher trainers, science curriculum specialists, advocates of hands-on science teaching, and concerned parents.

[HBR Guides to Emotional Intelligence at Work Collection \(5 Books\) \(HBR Guide Series\)](#) Harvard Business Review, Karen Dillon, Amy Gallo, 2017-11-14. Emotional intelligence has been shown to be more important than other competencies in determining outstanding leadership. Emotions drive some of our most critical professional interactions: whether you're inspiring your team to higher performance, persuading your boss to see something from your point of view, dealing with difficult colleagues, or managing your own stress level. Indeed, knowing how to manage emotions has become one of the crucial criteria in hiring and promotion. This specially priced five-volume set includes books from the HBR Guide series on the topics of Emotional Intelligence, Office Politics, Dealing with Conflict, Managing Stress at Work, and Managing Up and Across. You'll learn how to monitor and channel your moods and reactions, determine your emotional intelligence strengths and weaknesses, deal with difficult people, understand when to resolve a conflict head-on and when to let it go, influence others across the organization, build supportive alliances with coworkers and colleagues, handle workplace stress in productive ways, arm yourself with the advice you need to succeed on the job, and the
