L2 Spanish and Italian intonation Andrea Pešková,2023-10-31 The main aim of this book is to contribute to our understanding of the acquisition of second language intonation by comparing Czech learners of Spanish with German learners of Spanish and Czech learners of Italian By means of a large production database the study seeks to uncover how L1 to L2 intonational transfer works and what role prosodic dis similarities between languages play Contrary to most previous research the work presents an original multidirectional cross linguistic comparison and examines different types of sentence such as neutral and non neutral statements yes no questions wh questions exclamatives and vocatives The findings reveal positive and negative transfer from L1 to L2 and the
