

National Student Financial Aid Scheme (NSFAS)

NSFAS is a **government loan scheme**, with the added incentive of a bursary conversion (maximum of 40%) depending on academic performance.

- If you do well, 40% of this can be converted to a bursary!!
 - If you fail, you will have to pay back EVERYTHING!
-
- **Academically deserving and financially needy students** have the opportunity to apply for a loan from NSFAS, part of which can be converted to a bursary, subject to academic results.
 - Loans do not always cover tuition fees and other study costs in full. The amount of the loan is determined, among other things, by the family's financial need and the student's cost of study.
 - Application forms available online: www.nsfas.org.za

Discrimination in an Unequal World Miguel Angel Centeno, Katherine S. Newman, 2010-09 Is globalization making our world more equal or less Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge *Discrimination in an Unequal World* explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories
