Consolidated guidelines on person-centred HIV strategic information World Health Organization,2022-07-29

These consolidated guidelines are aimed at supporting the generation of responsive person centred data from routine national health management information systems across the HIV cascade from prevention testing and treatment to longer term health care They build upon the 2017 Consolidated guidelines on person centred HIV patient monitoring and case surveillance which describe information that should be collected in primary HIV patient monitoring tools and the 2020 Consolidated HIV strategic information guidelines which cover aggregate indicators for managing and monitoring programmes The purpose of this guideline consolidation is to provide the recommended data elements indicators and guidance on data systems and their use across the spectrum of health sector HIV services in one place This document focuses on strengthening the analysis and use of routine data at each stage of the cascade and emphasizes addresses person centred HIV prevention testing and treatment integration of HIV related infections the use of routine surveillance data to measure impact and the development and use of digital health data systems and their governance It also identifies the gaps and limitations in these data and the need for strengthening the use of data in all HIV related strategic information including population based surveys modelling community led monitoring and other sources *Climate Change, Energy, Sustainability and Pavements* Kasthurirangan Gopalakrishnan,Wynand JvdM Steyn,John Harvey,2014-09-25 Climate change energy production and consumption and the need to improve the sustainability of all aspects of human activity are key inter related issues for which solutions must be found and implemented quickly and efficiently To be successfully implemented solutions must recognize the rapidly changing socio techno political environment and multi dimensional constraints presented by today s interconnected world As part of this global effort considerations of climate change impacts energy demands and incorporation of sustainability concepts have increasing importance in the design construction and maintenance of highway and airport pavement systems To prepare the human capacity to develop and implement these solutions many educators policy makers and practitioners have stressed the paramount importance of formally incorporating sustainability concepts in the civil engineering curriculum to educate and train future civil engineers well equipped to address our current and future sustainability challenges This book will prove a valuable resource in the hands of researchers educators and future engineering leaders most of whom will be working in multidisciplinary environments to address a host of next generation sustainable transportation infrastructure challenges This book proposes a broad detailed overview of the actual scientific knowledge about pavements linked to climate change energy and sustainability at the international level in an original multidimensional multi effects way By the end the reader will be aware of the whole global issues to care about for various pavement technical features around the world among which the implications of modelling including data collection

challenging resources saving and infrastructures services optimisation This is a complete and varied work rare in the domain
Dr Agnes Jullien Research Director Director of Environmental Development Safety and Eco Design Laboratory EASE
Department of Development Mobility and Environment Ifsttar Centre de Nantes Cedex France An excellent compilation of
latest developments in the field of sustainable pavements The chapter topics have been carefully chosen and are very well
organized with the intention of equipping the reader with the state of the art knowledge on all aspects of pavement
sustainability Topics covered include pavement Life Cycle Analysis LCA pervious pavements cool pavements photocatalytic
pavements energy harvesting pavements etc which will all be of significant interest to students researchers and practitioners
of pavement engineering This book will no doubt serve as an excellent reference on the topic of sustainable pavements Dr
Wei Hsing Huang Editor in Chief of International Journal of Pavement Research and Technology IJPRT and Professor of Civil
Engineering National Central University Taiwan Assessing the Power of HIV Self-testing in Unreachable Populations in
Sub-Saharan Africa Joseph K. B. Matovu, Donaldson Fadael Conserve, Jeffrey Korte, Augustine Talumba Choko, 2022-12-06

Vertesi, David Ribes, 2019-05-07 New perspectives on digital scholarship that speak to today's computational realities
Scholars across the humanities social sciences and information sciences are grappling with how best to study virtual
environments use computational tools in their research and engage audiences with their results Classic work in science and
technology studies STS has played a central role in how these fields analyze digital technologies but many of its key examples
do not speak to today's computational realities This groundbreaking collection brings together a world class group of
contributors to refresh the canon for contemporary digital scholarship In twenty five pioneering and incisive essays this
unique digital field guide offers innovative new approaches to digital scholarship the design of digital tools and objects and
the deployment of critically grounded technologies for analysis and discovery Contributors cover a broad range of topics

including software development hackathons digitized objects diversity in the tech sector and distributed scientific collaborations They discuss methodological considerations of social networks and data analysis design projects that can translate STS concepts into durable scientific work and much more Featuring a concise introduction by Janet Vertesi and David Ribes and accompanied by an interactive microsite this book provides new perspectives on digital scholarship that will shape the agenda for tomorrow's generation of STS researchers and practitioners

Medical and Dental Space Planning Jain Malkin, 2014-06-30 THE UPDATED DEFINITIVE REFERENCE ON MEDICAL AND DENTAL OFFICE DESIGN Medical and Dental Space Planning is an indispensable guide to the myriad of details that make a medical or dental practice efficient and productive The unique needs of more than thirty specialties as well as primary care are explained in the context of new technology and the many regulatory and compliance issues influencing design Concepts are also presented for ambulatory surgical centers diagnostic imaging clinical laboratories breast care clinics endoscopy centers community health centers radiation oncology and single specialty and multispecialty group practices and clinics A thorough review of the latest dental technology and many creative space plans and design ideas for each dental specialty will be of interest to both dentists and design professionals Important topics like infection control are top of mind influencing every aspect of dental office design An inside look at what goes on in each specialist's office will familiarize readers with medical and dental procedures how they are executed and the types of equipment used Technology has radically impacted medical and dental practice digital radiography electronic health records mobile health devices point of care diagnostic testing digital diagnostic instrumentation CAD CAM systems for digital dental impressions and milling of restorations in the dentist's office portable handheld X ray and 3D cone beam computed tomography for dentists all have major implications for facility design The influence of the Affordable Care Act is transforming primary care from volume based to value based which has an impact on the design of facilities resulting in team collaboration spaces larger consultative examination assessment rooms and accommodation for multidisciplinary practitioners who proactively manage patient care often in a patient centered medical home context The wealth of information in this book is organized to make it easy to use and practical Program tables accompany each medical and dental specialty to help the designer compute the number and sizes of required rooms and total square footage for each practice This handy reference can be used during interviews for a reality check on a client's program or during space planning Other features for example help untangle the web of compliance and code issues governing office based surgery Illustrated with more than 600 photographs and drawings Medical and Dental Space Planning is an essential tool for interior designers and architects as well as dentists physicians and practice management consultants
